### Notes to the Abbreviated Accounts

## for the year ended 31st December 2001

## Accounting policies

#### Accounting convention

The financial statements have been prepared in accordance with applicable accounting standards under the historical cost convention.

#### Turnover

Turnover represents the invoiced amount of services provided less allowances, excluding value added tax.

## Research and development

Research and development expenditure is charged to the profit and loss account in the period in which it is incurred.

### Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less accumulated depreciation.

Depreciation is calculated to write down the cost, less estimated residual value, of all tangible fixed assets over their expected useful lives. The principal annual rates and methods used are:

| Plant and machinery     | 25% reducing balance |
|-------------------------|----------------------|
| Motor vehicles          | 25% reducing balance |
| Furniture and equipment | 10% reducing balance |
| Fixtures and fittings   | 20% reducing balance |

## Leasing and hire purchase

Certain tangible fixed assets are held under finance leases and hire purchase agreements. These assets are included in the balance sheet and are depreciated accordingly. The capital element of the corresponding financing commitments is included in the balance sheet. The finance element of repayments is charged to the profit and loss account in proportion to the reducing capital element outstanding.

All other leases held are operating leases and the payments made under them are charged to the profit and loss account on a straight line basis over the lease term.

### Stocks and work in progress

Stocks and work in progress are stated at the lower of cost and net realisable value.

### Deferred taxation

Deferred taxation is calculated under the liability method at the appropriate rate of tax in respect of timing differences between profits as computed for tax purposes and profits as stated in the financial statements to the extent that, in the opinion of the directors, those differences will give rise to tax liabilities in the foreseeable future.

### Pension costs

Pension costs are recognised on a systematic basis over the period that the company benefits from the services of the employees who are members of the pension scheme.
