STATEMENT OF DIRECTORS' RESPONSIBILITIES

Company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing those financial statements the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed, subject to any material departure disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors confirm that they have complied with the above requirements in preparing the financial statements.

The company's financial statements are published on The Housing Finance Corporation's ("THFC's") website (www.thfcorp.com) and the directors are responsible for the maintenance and integrity of the website. However there is currently uncertainty regarding the legal requirements in publishing information on websites, compounded because information published on the internet is accessible in many countries with different legal requirements relating to the preparation and dissemination of financial statements.

The directors are responsible for keeping proper accounting records which disclose, with reasonable accuracy at any time, the financial position of the company and to enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

HAVEN FUNDING PLC

The company's policy is to pay all other creditors within 60 days of receipt of invoice.

1 ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented unless otherwise stated.

Basis of accounting

These financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") and IFRIC interpretations, as adopted by the European Union, and with those parts of the Companies Act, 1985 applicable to companies reporting under IFRS. The financial statements have been prepared under the historical cost convention.

(a) Interpretations effective from 1 January 2008.

The following interpretations are mandatory for accounting periods beginning on or after 1 January 2008:

IFRIC 11, IFRS 2 – 'Company and treasury share transactions' is not relevant to the Company's operations because the Company does not operate any share schemes;

IFRIC 12, 'Service concession arrangements' is not relevant to the Company's operations because the Company does not provide public sector services; and

IFRIC 14, 'IAS 19 - The limit on a defined benefit asset' is not relevant to the Company's operations because the Company does not operate any defined benefit pension plans.

(b) Amendments to existing standards early adopted by the Company.

No amendments to existing standards have been early adopted by the Company in 2008.

(c) Standards, amendments and interpretations to existing standards that are not yet effective and are not considered material to the Company.

IAS 32 (amendment), 'Financial instruments: presentation' and IAS 1 (amendment), 'Presentation of financial statements' (effective from 1 January 2009).

IFRIC 16, 'Hedges of a net investment in a foreign operation' (effective for accounting periods starting from 1 October 2008).

IAS 31 (amendment), 'Interests in joint ventures' (effective from 1 January 2009).

IFRIC 15, 'Agreements for construction of real estates' (effective from 1 January 2009).

IFRS 2 (amendment), 'Share-based payment' (effective from 1 January 2009).

IFRS 3 (revised), 'Business combinations' (effective for accounting periods starting from 1 July 2009).

IFRIC 13, 'Customer loyalty programmes' (effective for accounting periods starting from 1 July 2009).

There were also another 23 amendments made to different IAS's or IFRS's by the IASB in May 2008.

These all had an effective date from 1 January 2009 or 1 July 2009. None of these are expected to have a material impact on the Company.

Critical Accounting Judgements

The preparation of financial statements in accordance with IFRSs requires the use of certain critical accounting adjustments, these require management's judgement in applying the accounting policies. The critical accounting judgement is deemed to be the recording of Secured Bonds and related Loans at amortised cost.

Segmental Analysis

All operating income and expenditure is derived from activities undertaken in the United Kingdom. The company's only activity is to provide finance to Registered Social landlords ("RSLs").

Interest

Interest receivable on loans to RSLs and interest payable on the bonds is accounted for on an accruals basis. Premiums on issue are added to the original loan value and charged to the income statement over the expected life of the loan so that the interest receivable, as adjusted for the amortisation of premiums, gives a constant yield to maturity.

Cash and cash equivalents

Cash and cash equivalents represent amounts on demand deposit.

Loans to borrowers ('Loans')

The loans are stated at amortised cost less allowance for loan losses.

Secured Bonds

Secured Bonds are stated at amortised cost.

Prepayment

Each loan agreement provides that any borrower may at any time purchase bonds at any price and following such a purchase, the borrower is required to surrender the bonds to the issuer by way of prepayment of the borrower's loan in an amount equal to the outstanding balance of the bonds being surrendered.

2 FINANCIAL RISK MANAGEMENT

Credit risk

The company's credit risk is mitigated by the following factors. The loans are secured on certain assets of the borrowers. All borrowers are subject to external regulation by the Tenant Services Authority. The bond trustee has the power to take control of the charged properties in certain pre-determined circumstances to protect cash flows to be used to satisfy obligations under the bonds.

Liquidity risk

To mitigate liquidity risk the company collects capital repayments and interest coupons from borrowers four business days prior to payment to bondholders. Additionally borrowers maintain a debt service reserve fund with the bond trustee that approximates to one year's worth of interest and capital repayments that can be drawn upon in the event of a late payment.

The loan repayments by the borrowers commence four business days before 31 March 2017. The repayments are calculated on an annuity basis with the final repayments being made four business days before 30 September 2037. Interest is receivable half yearly in arrears at an amount equal to the relevant borrowers' proportionate share of all interest falling due for payment by the company on the Secured Bonds.

Interest rate risk

The interest charged on the loans to the borrowers is fixed and is equal to the interest payable on the related Secured Bonds and hence there is no cash flow risk between the receipt and payment of interest. Accordingly, the directors consider that the company is not subject to any risk on the fluctuation of interest rates.

Fair value risk and market price risk

There is a fair value risk on the loans and Secured Bonds but there is no net risk. Market price risk is not expected to impact on the company because (i) the Secured Bonds are held at amortised cost in the financial statements and (ii) the company expects to hold them until maturity.

Currency risk

All financial assets and liabilities are denominated in sterling and hence there is no currency risk.
