## **Birchwood Garages Limited**

### **Strategic Report for the Year Ended 31 December 2019**

---

The directors present their strategic report for the year ended 31 December 2019.

#### **Principal activity**

---

The principal activity of the group is retail and servicing of motor vehicles under franchise.

#### **Fair review of the business**

---

During the year the company relinquished part of its interest in its trading subsidiary and no longer has control.

The company holds several property leases and recently signed a 25 year lease with Birchwood Motor Group who operate Ford and KIA franchises.

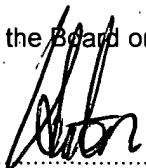

The directors are confident for further growth in profitability for the coming year through increased rents and a controlled lower cost base.

#### **Principal risks and uncertainties**

---

The company's strategy and the general nature of the business are not subject to any significant risks. However, the directors continually review the ongoing status of the company's activities and any potential new risks.

Approved by the Board on 13 March 2020 and signed on its behalf by:

.....  
Mr I Sexton  
Director

---

## **Birchwood Garages Limited**

### **Directors' Report for the Year Ended 31 December 2019**

---

The directors present their report and the consolidated financial statements for the year ended 31 December 2019.

#### **Directors of the group**

---

The directors who held office during the year were as follows:

Mr I Sexton

Mr CJ Hunt

#### **Financial instruments**

---

##### *Objectives and policies*

---

The group uses financial instruments other than derivatives comprising borrowings, cash and other liquid resources and various other items such as trade debtors and creditors that arise directly from its operations. The main purpose of these financial instruments is to raise finance for the group's operations. The main risks arising from the group's financial instruments are interest rate risk and liquidity risk. The directors review and agree policies for managing each of these risks and they are summarised below.

##### *Price risk, credit risk, liquidity risk and cash flow risk*

---

The group finances its operations through a mixture of reserves, related party loans, bank finance and trade borrowings from manufacturers, predominantly Ford. The group's exposure to interest rate fluctuations on its borrowings is managed by the use of both fixed and floating facilities.

The reduction in the Bank of England base rate during previous years has meant that the overall cost of borrowing has reduced significantly. The directors are mindful however of the potential for increases in interest rates in the medium term and keep borrowing levels under regular review.

The group seeks to manage financial risk by ensuring sufficient liquidity is available to meet foreseeable requirements. The group policy throughout the year has been to ensure continuity of funding from manufacturers and from the group's bankers.

Other debt is structured so that repayments can be made out of cash generated through operations.

#### **Disclosure of information to the auditor**

---

Each director has taken steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditor is aware of that information. The directors confirm that there is no relevant information that they know of and of which they know the auditor is unaware.

Approved by the Board on 13 March 2020 and signed on its behalf by:

Mr I Sexton  
Director

---

## **Birchwood Garages Limited**

### **Statement of Directors' Responsibilities**

---

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the group's and the company's transactions and disclose with reasonable accuracy at any time the financial position of the group and the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the group and the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

---

## **Birchwood Garages Limited**

### **Independent Auditor's Report to the Members of Birchwood Garages Limited**

---

#### **Opinion**

We have audited the financial statements of Birchwood Garages Limited (the 'parent company') and its subsidiaries (the 'group') for the year ended 31 December 2019, which comprise the Consolidated Profit and Loss Account, Consolidated Statement of Comprehensive Income, Consolidated Balance Sheet, Balance Sheet, Consolidated Statement of Changes in Equity, Statement of Changes in Equity, Consolidated Statement of Cash Flows, Statement of Cash Flows, and Notes to the Financial Statements, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards, including Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' (United Kingdom Generally Accepted Accounting Practice).

In our opinion the financial statements:

- give a true and fair view of the state of the group's and the parent company's affairs as at 31 December 2019 and of the group's profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

#### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the group in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Conclusions relating to going concern**

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the group's or the parent company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

#### **Opinion on other matter prescribed by the Companies Act 2006**

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the Strategic Report and Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the Strategic Report and Directors' Report have been prepared in accordance with applicable legal requirements.

---

## **Birchwood Garages Limited**

### **Independent Auditor's Report to the Members of Birchwood Garages Limited**

---

#### **Matters on which we are required to report by exception**

---

In the light of our knowledge and understanding of the group and the parent company and its environment obtained in the course of the audit, we have not identified material misstatements in the Strategic Report and the Directors' Report.

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

#### **Auditor's responsibilities for the audit of the financial statements**

---

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs (UK), we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the group's or the parent company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the group or the parent company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

---

## **Birchwood Garages Limited**

### **Independent Auditor's Report to the Members of Birchwood Garages Limited**

---

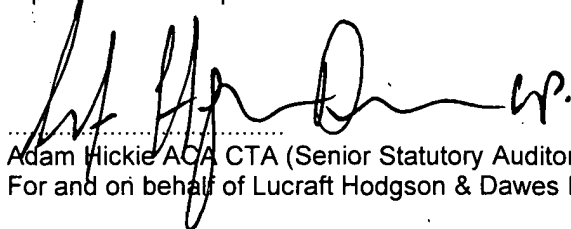

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

#### **Use of our report**

---

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

## **Birchwood Garages Limited**

### **Notes to the Financial Statements for the Year Ended 31 December 2019**

---

#### **1 General information**

---

The company is incorporated in England & Wales.

The address of its registered office is:

Lottbridge Drove

Eastbourne

East Sussex

BN23 6PX

These financial statements were authorised for issue by the Board on 13 March 2020.

#### **2 Accounting policies**

---

##### Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

##### Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

##### Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

These financial statements are presented in Sterling, which is also the company's functional currency. The financial statements are rounded to the nearest £1,000.

##### Basis of consolidation

The group financial statements consolidate the financial statements of the company and its subsidiary undertakings drawn up to 31 December 2019.

No income statement is presented for the company as permitted by section 408 of the Companies Act 2006. The company made a profit after tax for the financial year of £80,126 (2018 - loss of £451,450).

---

## **Birchwood Garages Limited**

### **Notes to the Financial Statements for the Year Ended 31 December 2019**

---

#### **2 Accounting policies (continued)**

A subsidiary is an entity controlled by the company. Control is achieved where the company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The results of subsidiaries acquired or disposed of during the year are included in the Profit and Loss Account from the effective date of acquisition or up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with those used by the group.

The purchase method of accounting is used to account for business combinations that result in the acquisition of subsidiaries by the group. The cost of a business combination is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed at the date of exchange, plus costs directly attributable to the business combination. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. Any excess of the cost of the business combination over the acquirer's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities recognised is recorded as goodwill.

Inter-company transactions, balances and unrealised gains on transactions between the company and its subsidiaries, which are related parties, are eliminated in full.

Intra-group losses are also eliminated but may indicate an impairment that requires recognition in the consolidated financial statements.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the group. Non-controlling interests in the net assets of consolidated subsidiaries are identified separately from the group's equity therein. Non-controlling interests consist of the amount of those interests at the date of the original business combination and the non-controlling shareholder's share of changes in equity since the date of the combination.

An associate is an entity over which the company holds significant influence. Significant influence is achieved where the company has the power to participate in the financial and operating policy decisions of the associate without control.

The share of results of associates acquired or disposed of during the year are included in the Profit and Loss Account from the effective date of acquisition or up to the effective date of disposal, as appropriate. Where necessary, adjustments are made to the financial statements of associates to bring their accounting policies into line with those used by the group.

Unrealised gains on transactions between the company and its associates, which are related parties, are eliminated in full.

Intra-group losses are also eliminated but may indicate an impairment that requires recognition in the consolidated financial statements.

---

## Birchwood Garages Limited

### Notes to the Financial Statements for the Year Ended 31 December 2019

---

#### 2 Accounting policies (continued)

---

##### *Judgements*

---

Consignment inventories have been included within the statement of financial position on the grounds that the group considerably bears the risks and rewards of ownership attached to these vehicles. As such, the consignment inventories are considered to be under the control of the group.

At each reporting date, property, plant and equipment is assessed for any indication of impairment. If such indication exists, the recoverable amount of each asset is determined based on value in use calculations which require estimates to be made of future cash flows. An impairment loss is recognised where the carrying amount exceeds the recoverable amount.

The group receives income in the form of various incentives which are determined by the group's brand partners. The amount receivable is generally based on achieving specific objectives such as specified sales volumes, as well as other objectives including maintaining brand partner standards which may include, but are not limited to, retail centre image and design requirements, customer satisfaction survey results and training standards. Objectives are generally set and measured on either a quarterly or annual basis.

##### *Revenue recognition*

---

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable and represents the amount receivable for goods supplied or services rendered, exclusive of trade discounts, value added tax and other sales related taxes.

Sales of motor vehicles, parts and accessories are recognised when the significant risks and rewards of ownership have been transferred to the buyer. In general this occurs when vehicles or parts are delivered to the customer and title has passed.

Income arising from servicing and bodyshop sales are recognised on completion of the agreed work.

Sales of peripheral goods and services such as road fund licences and insurance policies are recognised as miscellaneous sales when the company defrays its responsibilities under the contract.

Commissions and incentive payments from franchisors and finance providers are recognised as earned. Where such income relates to specific vehicles, this is recognised in line with the recognition of the relevant vehicle.

##### *Other grants*

---

Grants relating to tangible fixed assets are treated as deferred income and are released to the profit and loss account over the useful economic life of the asset concerned.

Other grants are credited to the profit and loss account as the related expenditure is incurred.

##### *Tax*

---

The tax expense for the period comprises current tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the group operates and generates taxable income.

---

## Birchwood Garages Limited

### Notes to the Financial Statements for the Year Ended 31 December 2019

---

#### 2 Accounting policies (continued)

---

Deferred tax is recognised in respect of all timing differences between taxable profits and profits reported in the consolidated financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference.

#### *Tangible assets*

---

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

#### *Depreciation*

---

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

<b>Asset class</b>	<b>Depreciation method and rate</b>
Short leasehold property	Over the period of the lease
Plant and machinery	10 years straight line
Fixtures and fittings	7 years straight line
Office equipment	3 years straight line

#### *Investment property*

---

Investment property is carried at fair value, derived from the current market prices for comparable real estate determined annually by external valuers. The valuers use observable market prices, adjusted if necessary for any difference in the nature, location or condition of the specific asset. Changes in fair value are recognised in profit or loss.

#### *Business combinations*

---

Business combinations are accounted for using the purchase method. The consideration for each acquisition is measured at the aggregate of the fair values at acquisition date of assets given, liabilities incurred or assumed, and equity instruments issued by the group in exchange for control of the acquired, plus any costs directly attributable to the business combination. When a business combination agreement provides for an adjustment to the cost of the combination contingent on future events, the group includes the estimated amount of that adjustment in the cost of the combination at the acquisition date if the adjustment is probable and can be measured reliably.

---

## Birchwood Garages Limited

### Notes to the Financial Statements for the Year Ended 31 December 2019

---

#### 2 Accounting policies (continued)

---

##### *Goodwill*

---

Goodwill arising on the acquisition of an entity represents the excess of the cost of acquisition over the group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the entity recognised at the date of acquisition. Goodwill is initially recognised as an asset at cost and is subsequently measured at cost less accumulated amortisation and accumulated impairment losses. Goodwill is held in the currency of the acquired entity and revalued to the closing rate at each reporting period date. Goodwill is amortised over its useful life, which shall not exceed ten years if a reliable estimate of the useful life cannot be made.

##### *Intangible assets*

---

Intangible assets are stated in the statement of financial position at cost, less any subsequent accumulated amortisation and subsequent accumulated impairment losses.

##### *Amortisation*

---

Amortisation is provided on intangible assets so as to write off the cost, less any estimated residual value, over their useful life as follows:

<b>Asset class</b>	<b>Amortisation method and rate</b>
Goodwill	15 years straight line
Computer software and website development	3 years straight line

##### *Investments*

---

Investments in equity shares which are publicly traded or where the fair value can be measured reliably are initially measured at fair value, with changes in fair value recognised in profit or loss. Investments in equity shares which are not publicly traded and where fair value cannot be measured reliably are measured at cost less impairment.

Interest income on debt securities, where applicable, is recognised in income using the effective interest method. Dividends on equity securities are recognised in income when receivable.

##### *Cash and cash equivalents*

---

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

##### *Debtors*

---

Trade debtors are amounts due from customers for merchandise sold or services performed in the ordinary course of business.

Trade debtors are recognised initially at the transaction price. They are subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for the impairment of trade debtors is established when there is objective evidence that the group will not be able to collect all amounts due according to the original terms of the receivables.

---

## **Birchwood Garages Limited**

### **Notes to the Financial Statements for the Year Ended 31 December 2019**

---

#### **2 Accounting policies (continued)**

##### *Inventories*

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the first-in, first-out (FIFO) method.

The cost of finished goods and work in progress comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. At each reporting date, stocks are assessed for impairment. If stocks are impaired, the carrying amount is reduced to its selling price less costs to complete and sell; the impairment loss is recognised immediately in profit or loss.

Stocks include consignment stocks where the risks and rewards of ownership have been passed to the group. Where consignment stocks are recognised, the associated liability is included within creditors.

##### *Creditors*

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the group does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

##### *Borrowings*

Interest-bearing borrowings are initially recorded at fair value, net of transaction costs.

Interest-bearing borrowings are subsequently carried at amortised cost, with the difference between the proceeds, net of transaction costs, and the amount due on redemption being recognised as a charge to the Profit and Loss Account over the period of the relevant borrowing.

Interest expense is recognised on the basis of the effective interest method and is included in interest payable and similar charges.

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

##### *Leases*

At inception the group assesses agreements that transfer the right to use assets. The assessment considers whether the arrangement is, or contains, a lease based on the substance of the agreement.

Leases that do not transfer all the risks and rewards of ownership are classified as operating leases. Payments under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.

The group acts as a lessor by sub letting certain operating leases. Rentals receivable under these sub leases are credited to the profit and loss account on a straight line basis over the period of the lease, even if payments are not received on such a basis.

---

## **Birchwood Garages Limited**

### **Notes to the Financial Statements for the Year Ended 31 December 2019**

---

#### **2 Accounting policies (continued)**

---

##### *Share capital*

---

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

##### *Defined contribution pension obligation*

---

A defined contribution plan is a pension plan under which fixed contributions are paid into a pension fund and the group has no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Contributions to defined contribution plans are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as a prepayment.

---

## Birchwood Garages Limited

### Notes to the Financial Statements for the Year Ended 31 December 2019

---

#### 2 Accounting policies (continued)

---

##### *Financial instruments*

---

###### *Classification*

The group only enters into basic financial instruments transactions that result in the recognition of financial assets and liabilities such as trade and other accounts receivable and payable, loans from banks and other third parties, loans to related parties and investments in non-puttable ordinary shares.

###### *Recognition and measurement*

Debt instruments (other than those wholly repayable or receivable within one year), including loans and other accounts receivable and payable, are initially measured at the present value of the future cash flows and subsequently at amortised costs using the effective interest method.

Debt instruments that are payable or receivable within one year, typically trade payables or receivables, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received. However, if the arrangements of a short term instrument constitute a financing transaction, such as the payment of a trade debt deferred beyond normal business terms or financed at a rate of interest that is not a market rate or in case of an outright short term loan not at market rate, the financial asset or liability is measured, initially, at the present value of the future cash flow, discounted at a market rate of interest for a similar debt instrument and subsequently at amortised cost.

Investments in non-convertible preference shares and in non-puttable ordinary shares are measured:

- at fair value with changes recognised in the income statement if the shares are publically traded or their fair value can otherwise be measured reliably;
- at cost less accumulated impairment for all other investments.

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

###### *Impairment*

Financial assets that are measured at cost and amortised cost are assessed at the end of each reporting period for objective evidence of impairment. If evidence of impairment is found, an impairment loss is recognised in the income statement.

For financial assets measured at amortised cost, the impairment loss is measured as the difference between an asset's carrying amount and the present value of estimated cash flows discounted at the asset's original effective interest rate. If a financial asset has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate determined under the contract.

For financial assets measured at cost less impairment, the impairment loss is measured as the difference between an asset's carrying value and best estimate, which is an approximation of the amount that the group would receive for the asset if it were to be sold at the reporting date.
