Going concern

At 31 December 2021 the Company had net assets of £6.7million and net current assets of £nil.

The Company does not have a bank account. It is a subsidiary within the FCC Environment (UK) Limited ("FCC E UK") group of companies whose banking, invoicing and collections and payables and procurement services are grouped and managed via an agency agreement with a fellow subsidiary of FCC E UK, FCC Recycling (UK) Limited ("FCC R"). All cash movements relating to the Company's transactions are processed through the banking facilities of FCC R and form a part of the inter-company balances between the Company and FCC R.

The Directors have assessed the responses from their enquiries to the immediate parent company, FCC E UK, in connection with the agency agreement and have reviewed projected cash flows, and carefully considered the risks to the Company's trading performance and cash flows. The company is dormant and the Directors neither expect it to trade nor for there to be any cash flows in the foreseeable future.

The Directors therefore continue to adopt the going concern basis in preparing the Annual report and financial statements.

Consolidation

The Company has claimed exemption from the preparation of consolidated financial statements under section 400 of the Companies Act 2006 as it is a subsidiary of a group which has prepared consolidated financial statements. 3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 2, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

- **Fixed asset investments** – Fixed asset investments are tested for impairment on a value in use basis using business valuations of the subsidiaries, where available, or the Directors' current estimate of the medium-term forecasts. The value in use calculations require the entity to estimate the future cash flows expected to arise from the investments and suitable discount rates in order to calculate present values. Actual future cash flows could vary from those estimated. Factors such as closure of facilities and declining volumes could result in lower expected future cash flows or impairment. Management review and update the discount rates used annually. The discount rates used may also have an impact on the estimation of future cash flows.

3. Statement of comprehensive income

No statement of comprehensive income is presented with these financial statements because the Company has not received income, incurred expenditure or recognised any gains or losses during either the year ended 31 December 2021 or the previous financial year.

They are all remunerated as directors or employees of FCC E UK for services to the Group as a whole and as such it is not possible to directly attribute any element of their remuneration to services as a director of this Company. Certain Directors were remunerated by fellow subsidiary companies of FCC without recharge to the Group.
