Notes to the Abbreviated Accounts
for the Year Ended 29 February 2012

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

Turnover represents the net amounts invoiced to customers during the period less work in progress and net of value added tax

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter

Optical equipment	- 14-25% on cost
Fixtures and fittings	- 14-25% on cost
Computer equipment	- 33% on cost

Stock

Stock is valued at the lower of cost and net realisable value. Cost is determined on an average cost price basis. Net realisable value is based on estimated selling price, allowing for all further costs of completion and disposal.

Deferred tax

Deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of items of income and expenditure in tax computations in periods different from those in which they are included in the financial statements. Deferred tax assets and liabilities are not discounted.

Dividends

The company recognises dividends in the period in which they are authorised.

Hire purchase and leasing commitments

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is the shorter.

The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

Rentals applicable to operating leases where substantially all the benefits and risks of ownership remain with the lessor are charged against profits on a straight line basis over the lease term, even if the payments are not made on such a basis.

Pension Costs

The company operates a defined contribution scheme for its employees under which the pension costs charged against profits represent the amount of contributions payable to the scheme for the period. Differences between contributions payable in the year and contributions actually paid are shown as either accruals or prepayments on the balance sheet.

Going Concern

The financial statements are prepared on a going concern basis on the grounds that continued support will be received from the directors for the foreseeable future.

Group Accounts

The company is a subsidiary of Specsavers Optical Superstores Limited, a company registered in England and Wales. The company has taken advantage of the exemption not to prepare statutory consolidated financial statements under section 398 of the Companies Act 2006. Accordingly these financial statements present information about the company and not its group.
