A & A TRADING (UK) LIMITED

(Registration number: 03241095)

Balance Sheet as at 30 June 2017

For the financial year ending 30 June 2017 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its accounts for the year in question in accordance with section 476; and
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts.

These financial statements have been prepared and delivered in accordance with the special provisions relating to companies subject to the small companies regime within Part 15 of the Companies Act 2006. The option not to file the profit and loss account and directors' report has been taken.

Approved and authorised by the Board on 12 January 2018 and signed on its behalf by:

P E Pickering
Director

A & A TRADING (UK) LIMITED

Notes to the Financial Statements for the Year Ended 30 June 2017

1 General information

The company is a private company limited by share capital, incorporated in England.

The address of its registered office is:

Mary Street House
Mary Street
Taunton
Somerset
TA1 3NW

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

This is the first year in which the financial statements have been prepared under FRS 102. No transitional adjustments have been required in order to comply with the standard.

Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

These financial statements are presented in pounds sterling to the nearest pound.

Turnover recognition

Turnover comprises the fair value of the consideration received or receivable for the sale of goods and provision of services in the ordinary course of the company's activities. Turnover is shown net of value added tax and discounts received.

Turnover is recognised at the point of sale.

Foreign currency transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency rate prevailing at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated into the respective functional currency of the entity at the rates prevailing on the reporting period date.

Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in the profit and loss account, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

A & A TRADING (UK) LIMITED

Notes to the Financial Statements for the Year Ended 30 June 2017

The current tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred tax is recognised on timing differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements and on unused tax losses or tax credits in the company. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

The carrying amount of deferred tax assets are reviewed at each reporting date and a valuation allowance is set up against deferred tax assets so that the net carrying amount equals the highest amount that is more likely than not to be recovered based on current or future taxable profit.

Deferred tax liabilities are presented within provisions for liabilities on the balance sheet

Tangible assets

Tangible assets are stated at cost, less accumulated depreciation and accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation of tangible assets

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class	Depreciation method and rate
Fixtures and fittings	25% straight line
Motor vehicles	25% reducing balance
Land and buildings	Not depreciated as relates wholly to land

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Debtors

Trade debtors are payments on account and amounts due from customers for merchandise sold in the ordinary course of business.

Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the first-in, first-out (FIFO) method.

A number of items were held at the year end that are not sold in the ordinary course of business of the company. These items have been shown separate of the stock held by the company at the year end.

A & A TRADING (UK) LIMITED

Notes to the Financial Statements for the Year Ended 30 June 2017

Creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if the company does not have an unconditional right, at the end of the reporting period, to defer settlement of the creditor for at least twelve months after the reporting date. If there is an unconditional right to defer settlement for at least twelve months after the reporting date, they are presented as non-current liabilities.

Trade creditors are recognised initially at the transaction price and subsequently measured at amortised cost using the effective interest method.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Dividends

Dividend distribution to the company's shareholders is recognised as a liability in the financial statements in the reporting period in which the dividends are declared.

Defined contribution pension obligation

The company operates a defined contribution plan for its employees. A defined contribution plan is a pension plan under which the company pays fixed contributions into a separate entity. Once the contributions have been paid the company has no further payments obligations.

The contributions are recognised as an expense in the profit and loss account when they fall due. Amounts not paid are shown in accruals as a liability in the balance sheet. The assets of the plan are held separately from the company in independently administered funds.

3 Staff numbers

The average number of persons employed by the company (including directors) during the year was 11 (2016 - 11).
