Statement of directors' responsibilities in respect of the directors' report and the financial statements

The directors are responsible for preparing the directors' report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice)

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period

In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgements and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements, and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities

Basis of preparation

The financial statements are prepared on a going concern basis under the historical cost convention and in accordance with applicable UK accounting standards

These financial statements present information about the company as an individual undertaking and not about its group

Foreign currencies

In accordance with Statement of Standard Accounting Practice Number 20 Foreign Currency Translation (SSAP 20), transactions in foreign currencies are recorded at the rate of exchange at the date of the transaction, or if hedged forward, at the rate of exchange under the related foreign currency contract. Assets and liabilities denominated in foreign currencies are translated into sterling at the financial year end exchange rates. Exchange gains and losses are taken to the profit and loss account

Fixed asset investments

Income from fixed asset investments is credited to the profit and loss account when it is approved by the paying company. Investments are stated individually at cost less provision for impairment in value where such impairment is expected by the directors to be permanent

Taxation

Current tax, including UK corporation tax and overseas tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted at the balance sheet date. Except as otherwise required by FRS 19, deferred tax is provided in full on timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more tax, or a right to pay less tax, in the future. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
