Notes to the Abbreviated Accounts

For the year ended 31 May 2013

1. Accounting Policies

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2 Going concern

The directors prepare financial forecasts and monitor financial performance on a rolling basis. From this, the directors have reasonable expectation that the company has adequate resources for the foreseeable future. Thus the financial statements have been prepared on a going concern basis.

1.3 Turnover

Turnover comprises revenue recognised by the company in respect of goods and services supplied during the year, exclusive of Value Added Tax and trade discounts.

1.4 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

1.5 Stock of property

Stock of property and development expenditure is included at cost. Where contracts have been exchanged on the sale of a property it is included at the lower of cost and net realisable value. Net realisable value is based on selling price less anticipated costs to completion and selling costs. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads including interest specifically attributable to the project whilst under development.

2. Creditors:

Amounts falling due within one year

Included in creditors is £,NIL (2012 - £7,779,517) over which security has been given by the company.
