Structure, governance and management

The company is limited by guarantee governed by its Memorandum and Articles of Association. It is a registered charity (No. 1071422) with the Charity Commission. The company is managed by the Management Committee who are elected by the members of the Annual General Meeting of the Company. The Management Committee may at any time co-opt up to three persons to the Management Committee. Members of the Management Committee are also appointed as Directors of the Company. The Management Committee meet regularly to manage its affairs. The charity employs a manager to operate the Cliff Railway.

Government action to prevent normal trading as a result of the COVID-19 pandemic adversely impacted on the trading activity of the Company and its subsidiary during the year.

Objectives and activities

In shaping our objective for the year and planning our activities, the trustees have considered the Charity Commission's guidance on public benefit, including the guidance on public benefit and fee charging. The Charity relies on income from fees and charges to cover its operating costs. In setting the level of fees, charges and concessions, the trustees give careful consideration to the accessibility of the Cliff Railway for those on low incomes.

Charitable objects

The Charity's object and its principal activity is to advance the education of the public through conservation of the Aberystwyth Cliff Railway for the public benefit and through the encouragement of voluntary work in support of the Aberystwyth Cliff Railway.

Day to day operations

The site is leased from Ceredigion County Council for 99 years from July 1998 at a peppercorn rent. The lease consists of the top and bottom stations with a track on which a funicular railway runs, and the land at the summit on which a Camera Obscura and café is built.

Co-operation with other charities

It is an objective of the charity to co-operate with other charities, voluntary bodies and statutory authorities operating in furtherance of the objects or similar charitable purposes and to exchange information and advice with them.

Achievements and performance

The year to 31 March 2022 was not as severely impacted by the COVID-19 pandemic as the previous year and in fact generated record receipts as holidaymakers, unable or reluctant to holiday abroad, boosted the local economy particularly in the late Summer and Autumn of 2021. Railway ticket sales increased markedly compared to the previous year £310,581 (2021 - £106,984). Flat income similarly increased £29,518 (2021 - £9,368).

Government help was still available to the Company under the COVID-19 relief initiative, at the beginning of the year : The JRS 'furlough' scheme provided £21,524 (2021 - £73,940) of income during the year. Additionally, a grant was received from Co-op Bank for £9,800 towards the cost of developing a 'crazy golf' course at the summit station.

Wages costs including the manager being £208,453 (2021 - £157,225) are analysed as follows in the financial statements:

	2022	2021
	£	£
Staff costs - manager's cost (Note 11 Support costs)	37,435	38,317
Staff costs (Note 13)	171,018	90,974
Staff costs included in 'Covid mitigation and PTP' expense	—	27,934
	-----	-----
Total	208,453	157,225
	-----	-----

Land and building expenditure of £108,647 was incurred on completing the separate building and lift to facilitate disabled access, at the top station, the new car park at the bottom station, and the development of a new seating area and crazy golf course at the summit. This expenditure is shown in the financial statements as additions to land and buildings.

The covid 19 pandemic which severely impacted the trading results for the previous year, did not negatively impact the year under review. During the current year (to 31 March 2022) the Charity has been able to enjoy (apart from the first month or so of the financial year) virtually unrestricted trade. At the accounts signature date, the Trustees are hopeful that the worst of the pandemic restrictions are behind. Despite the uncertainty facing the future, with regards to Covid 19, the Charity is confident that it remains in a good place to face the future, given the level of support received to date and anticipated in the future.

Risk Management

The trustees continue to monitor the risks to which the charity is exposed. These risks are constantly under review and systems improved to mitigate their possible effects on the charity.

Financial review

During the year under review the charity returned a surplus of £106,442 (2021: net surplus of £50,806) increasing the general fund to £487,440 (2021: £380,998).

Reserves

The charity's policy is to hold at least 3 months running costs in reserve. This policy is unlikely to be achieved in the short-term until the Charity has returned trading and cash surpluses for several years.

Plans for future periods

All the work carried out over the current and previous years has put the charity in good stead for the future. There is no known requirement for any major expenditure at least in the short-term.

The trustees continue to monitor the effects of the COVID-19 pandemic, as far as their impact is known, and have in particular considered the impact on going concern considerations. the Trustees feel that they have positive reserves available to assist with any further restrictions. The trustees have worked with the restrictions and continue trade and indeed have seen highly encouraging uplifts to business activity levels even in the pre-pandemic era.

all possible legal and health and safety requirements have been adhered to reducing any possible future litigation issues where possible.

Small company provisions

This report has been prepared in accordance with the provisions applicable to companies entitled to the small companies exemption.

The trustees' annual report was approved on 15 August 2022 and signed on behalf of the board of trustees by:

For the year ending 31 March 2022 the charity was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies.

Directors' responsibilities:

- The members have not required the company to obtain an audit of its financial statements for the year in question in accordance with section 476 ;
- The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of financial statements .

These financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime.

Notes to the Financial Statements

Year ended 31 March 2022

1. General information

The charity is a public benefit entity and a private company limited by guarantee, registered in England and Wales and a registered charity in England and Wales. The address of the registered office is Cliff Terrace, Aberystwyth, Ceredigion, SY23 2DN.

2. Statement of compliance

These financial statements have been prepared in compliance with FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland', the Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (Charities SORP (FRS 102)) and the Companies Act 2006.

3. Accounting policies

Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of certain financial assets and liabilities and investment properties measured at fair value through income or expenditure.

The financial statements are prepared in sterling, which is the functional currency of the entity.

Going concern

There are no material uncertainties about the charity's ability to continue.

Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. EFFECTS OF COVID-19 Whilst there are due grounds for optimism, the trustees are mindful of their obligations and continue to monitor the pandemic and are ready to take decisive action if and when needed.

Fund accounting

Unrestricted funds are available for use at the discretion of the trustees to further any of the charity's purposes. Designated funds are unrestricted funds earmarked by the trustees for particular future project or commitment. Restricted funds are subjected to restrictions on their expenditure declared by the donor or through the terms of an appeal, and fall into one of two sub-classes: restricted income funds or endowment funds.

Incoming resources

All incoming resources are included in the statement of financial activities when entitlement has passed to the charity; it is probable that the economic benefits associated with the transaction will flow to the charity and the amount can be reliably measured. The following specific policies are applied to particular categories of income: - income from donations or grants is recognised when there is evidence of entitlement to the gift, receipt is probable and its amount can be measured reliably. - legacy income is recognised when receipt is probable and entitlement is established. - income from donated goods is measured at the fair value of the goods unless this is impractical to measure reliably, in which case the value is derived from the cost to the donor or the estimated resale value. Donated facilities and services are recognised in the accounts when received if the value can be reliably measured. No amounts are included for the contribution of general volunteers. - income from contracts for the supply of services is recognised with the delivery of the contracted service. This is classified as unrestricted funds unless there is a contractual requirement for it to be spent on a particular purpose and returned if unspent, in which case it may be regarded as restricted.

Resources expended

Expenditure is recognised on an accruals basis as a liability is incurred. Expenditure includes any VAT which cannot be fully recovered, and is classified under headings of the statement of financial activities to which it relates: - expenditure on raising funds includes the costs of all fundraising activities, events, non-charitable trading activities, and the sale of donated goods. - expenditure on charitable activities includes all costs incurred by a charity in undertaking activities that further its charitable aims for the benefit of its beneficiaries, including those support costs and costs relating to the governance of the charity apportioned to charitable activities. - other expenditure includes all expenditure that is neither related to raising funds for the charity nor part of its expenditure on charitable activities.

All costs are allocated to expenditure categories reflecting the use of the resource. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs are apportioned between the activities they contribute to on a reasonable, justifiable and consistent basis.

Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses. Any tangible assets carried at revalued amounts are recorded at the fair value at the date of revaluation less any subsequent accumulated depreciation and subsequent accumulated impairment losses. An increase in the carrying amount of an asset as a result of a revaluation, is recognised in other recognised gains and losses, unless it reverses a charge for impairment that has previously been recognised as expenditure within the statement of financial activities. A decrease in the carrying amount of an asset as a result of revaluation, is recognised in other recognised gains and losses, except to which it offsets any previous revaluation gain, in which case the loss is shown within other recognised gains and losses on the statement of financial activities.

Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Long Leasehold Property	-	100 year lease
Plant and machinery	-	25% reducing balance
Fixtures & Fittings	-	25% reducing balance
Motor Vehicles	-	25% reducing balance

Investments

Unlisted equity investments are initially recorded at cost, and subsequently measured at fair value. If fair value cannot be reliably measured, assets are measured at cost less impairment.

Listed investments are measured at fair value with changes in fair value being recognised in income or expenditure.

Investments in associates

Investments in associates accounted for in accordance with the cost model are recorded at cost less any accumulated impairment losses. Investments in associates accounted for in accordance with the fair value model are initially recorded at the transaction price. At each reporting date, the investments are measured at fair value, with changes in fair value taken through income or expenditure. Where it is impracticable to measure fair value reliably without undue cost or effort, the cost model will be adopted. Dividends and other distributions received from the investment are recognised as income without regard to whether the distributions are from accumulated profits of the associate arising before or after the date of acquisition.

Investments in joint ventures

Investments in jointly controlled entities accounted for in accordance with the cost model are recorded at cost less any accumulated impairment losses. Investments in jointly controlled entities accounted for in accordance with the fair value model are initially recorded at the transaction price. At each reporting date, the investments are measured at fair value, with changes in fair value taken through income or expenditure. Where it is impracticable to measure fair value reliably without undue cost or effort, the cost model will be adopted. Dividends and other distributions received from the investment are recognised as income without regard to whether the distributions are from accumulated profits of the joint venture arising before or after the date of acquisition.

Impairment of fixed assets

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date. For the purposes of impairment testing, when it is not possible to estimate the recoverable amount of an individual asset, an estimate is made of the recoverable amount of the cash-generating unit to which the asset belongs. The cash-generating unit is the smallest identifiable group of assets that includes the asset and generates cash inflows that largely independent of the cash inflows from other assets or groups of assets. For impairment testing of goodwill, the goodwill acquired in a business combination is, from the acquisition date, allocated to each of the cash-generating units that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the charity are assigned to those units.

Stocks

Stocks are measured at the lower of cost and estimated selling price less costs to complete and sell. Cost includes all costs of purchase, costs of conversion and other costs incurred in bringing the stock to its present location and condition.

Government grants

Government grants are recognised at the fair value of the asset received or receivable. Grants are not recognised until there is reasonable assurance that the charity will comply with the conditions attaching to them and the grants will be received. Where the grant does not impose specified future performance-related conditions on the recipient, it is recognised in income when the grant proceeds are received or receivable. Where the grant does impose specified future performance-related conditions on the recipient, it is recognised in income only when the performance-related conditions have been met. Where grants received are prior to satisfying the revenue recognition criteria, they are recognised as a liability.

Financial instruments

A financial asset or a financial liability is recognised only when the charity becomes a party to the contractual provisions of the instrument. Basic financial instruments are initially recognised at the amount receivable or payable including any related transaction costs. Current assets and current liabilities are subsequently measured at the cash or other consideration expected to be paid or received and not discounted. Debt instruments are subsequently measured at amortised cost. Where investments in shares are publicly traded or their fair value can otherwise be measured reliably, the investment is subsequently measured at fair value with changes in fair value recognised in income and expenditure. All other such investments are subsequently measured at cost less impairment. Other financial instruments, including derivatives, are initially recognised at fair value, unless payment for an asset is deferred beyond normal business terms or financed at a rate of interest that is not a market rate, in which case the asset is measured at the present value of the future payments discounted at a market rate of interest for a similar debt instrument. Other financial instruments are subsequently measured at fair value, with any changes recognised in the statement of financial activities, with the exception of hedging instruments in a designated hedging relationship.

Financial assets that are measured at cost or amortised cost are reviewed for objective evidence of impairment at the end of each reporting date. If there is objective evidence of impairment, an impairment loss is recognised under the appropriate heading in the statement of financial activities in which the initial gain was recognised. For all equity instruments regardless of significance, and other financial assets that are individually significant, these are assessed individually for impairment. Other financial assets are either assessed individually or grouped on the basis of similar credit risk characteristics. Any reversals of impairment are recognised immediately, to the extent that the reversal does not result in a carrying amount of the financial asset that exceeds what the carrying amount would have been had the impairment not previously been recognised.

Defined contribution plans

Contributions to defined contribution plans are recognised as an expense in the period in which the related service is provided. Prepaid contributions are recognised as an asset to the extent that the prepayment will lead to a reduction in future payments or a cash refund. When contributions are not expected to be settled wholly within 12 months of the end of the reporting date in which the employees render the related service, the liability is measured on a discounted present value basis. The unwinding of the discount is recognised as an expense in the period in which it arises.

4. Limited by guarantee

Constitution Hill Ltd is a company limited by guarantee and accordingly does not have a share capital. Every member of the company undertakes to contribute such amount as may be required not exceeding £1 to the assets of the charitable company in the event of it being wound up while he or she is a member, or within one year after he or she ceases to be a member.

The subsidiary undertaking, Constitution Hill Trading Ltd, is incorporated in England & Wales. The nature of business is a café. Constitution Hill Ltd owns 100% of the ordinary share capital of the company. There was a balance due to Constitution Hill Trading Ltd from the Company at the year end of £17,812 (2021 - £2,396 was due to the Company from Constitution Hill Trading Ltd). A management charge of £18,750 was levied on Constitution Hill Trading Ltd by Constitution Hill Ltd in the year under review, to cover half of the Manager's salary cost to the Company - this is felt to be a fair allocation of cost given the time spent on the respective duties of each Company.
