Notes to the Financial Statements
for the Year Ended 31 March 2019

1. STATUTORY INFORMATION

The Cambridge Property Company Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets.

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented unless otherwise stated.

Turnover

Turnover comprises rental income from the letting out of investment properties, excluding value added tax. Rental income is recognised in accordance with the underlying leases to each investment property.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings	- 10% on reducing balance
-----------------------	---------------------------

Investment property

Investment properties, for which fair value can be measured reliably without undue cost or effort, are measured at fair value at each reporting date, with changes in fair value recognised in the statement of comprehensive income.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

2. ACCOUNTING POLICIES - continued

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Loans and borrowings

Loans and borrowings are initially recognised at the transaction price including transaction costs. Subsequently, they are measured at amortised cost using the effective interest rate method, less impairment.

Debtors and creditors due within one year

Debtors and creditors with no stated interest rate, which are due within one year, are stated at the transaction price. Any losses arising from impairment are recognised in the statement of comprehensive income within administrative expenses.

Impairment

At each balance sheet date, assets are reviewed to determine whether there is any indication that any of the individual assets have suffered an impairment. If such indication exists, the recoverable amount of the asset, or the assets cash generating unit, is estimated and compared to the carrying amount. Where the carrying amount exceeds its recoverable amount, an impairment loss is recognised in the statement of comprehensive income.

3. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 1 (2018 - 1) .
