The company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the period ended 30 April 2012

The members have not required the company to obtain an audit of its financial statements for the period ended 30 April 2012 in accordance with Section 476 of the Companies Act 2006

The director acknowledges his responsibilities for

- ensuring that the company keeps accounting records which comply with Sections 386 and 387 of the Companies Act 2006 and (a)
- (b) preparing financial statements which give a true and fair view of the state of affairs of the company as at the end of each financial year and of its profit or loss for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the company

The abbreviated accounts have been prepared in accordance with the special provisions of Part 15 of the Companies Act 2006 relating to small companies

The financial statements were approved by the director on

27/2/20/3 and were signed by

R H Bilton - Director

# Notes to the Abbreviated Accounts for the Period 1 November 2010 to 30 April 2012

#### ACCOUNTING POLICIES

#### Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

#### Turnover

Turnover represents property disposals where acquired for resale, gross rents and charges receivable and is attributable to one continuing activity of property investment

#### Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life

Fixtures and fittings

15% on reducing balance

No depreciation is provided on completed freehold investment properties in order to give a true and fair view, in accordance with SSAP19

#### Stocks

Work in progress is valued at the lower of cost and net realisable value

Cost includes all direct expenditure and an appropriate proportion of fixed and variable overheads

#### Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme Contributions payable to the company's pension scheme are charged to the profit and loss account in the period to which they relate

#### **Investment Properties**

Completed freehold properties are accounted for in accordance with the Statement of Standard Accounting Practice No 19 (SSAP 19) as follows

- (1) Investment properties are revalued annually and the aggregate surplus or deficit is transferred to a revaluation reserve unless a deficit, or its reversal on an individual property is expected to be permanent, in which case it is recognised in the profit and loss account for the year
- (ii) No depreciation is provided in respect of completed leasehold investment properties with over 20 years to run

Although the Companies Act would normally require the systematic annual depreciation of fixed assets, the directors believe that this policy of not providing depreciation is necessary in order for the accounts to give a true and fair view, since the current value of investment properties and changes in that current value are of prime importance rather than a calculation of systematic annual depreciation. Depreciation is only one of the many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified.

Freehold and long leasehold properties in the course of development are stated at cost less any permanent diminution in value. These properties are treated as completed as soon as building and construction work has been finished.

#### Deferred taxation

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date. However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and the law enacted or substantively enacted at the balance sheet date.
