Statement of Directors' Responsibilities

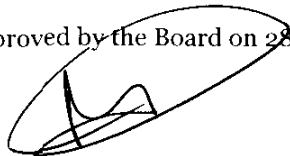

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), including FRS 101 'Reduced Disclosure Framework' ('FRS 101'). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether FRS 101 has been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Horsforth

LS18 5AZ

Basis of preparation

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework.

The Company meets the definition of a qualifying entity under FRS 100 (Financial Reporting Standard 100) issued by the Financial Reporting Council and prepares accounts under ("FRS 101") as issued by the Financial Reporting Council.

The financial statements have been prepared on the historic cost basis. The functional currency of the Company is considered to be pounds sterling because that is the currency of the primary economic environment in which the Company operates.

As permitted by FRS 101, the company has taken advantage of the disclosure exemptions available under that standard in relation to standards issued but not yet effective, financial instruments, presentation of a cash-flow statement and related party transactions. Where required, equivalent disclosures are given in the Group financial statements of Tenet Group Limited. The Group financial statements of Tenet Group Limited are available to the public.

As stated in the Directors' Report, after making enquiries the directors have a reasonable expectation that the company has adequate resources to continue trading successfully and fully comply with its regulatory requirements for 12 months from the date of the directors' report. 2. Accounting policies (continued)

Tax

The tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expenses that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax, including UK corporation tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax assets are only recognised when it is probable that the Company will be able to realise these benefits. Deferred tax liabilities are recognised when incurred. These are recognised at the substantially enacted tax rates.

Trade receivables

Trade and other receivables are classified as financial assets measured at amortised cost. Under the IFRS 9 ECL model, a credit event (or impairment trigger) no longer needs to occur before credit losses are recognised. The Company analysed the risk profile of trade receivables based on past experience and an analysis of the receivables current financial position, potential for a default event to occur, adjusted for specific factors, general economic conditions of the industry in which the receivables operate and assessment of both the current and forecast direction of conditions at the reporting date. A default event is considered to occur when information is obtained that indicates a receivable is unlikely to settle their liability with the Company.

Credit risk is regularly reviewed by management to ensure the expected credit loss model (ECL) is being appropriately applied.

Financial assets and liabilities

Classification and measurement of financial assets and liabilities

Classification of financial assets and liabilities are generally based on the business model in which the financial asset is managed and its contractual cash flow characteristics. A financial asset is measured at amortised cost if it is held with the objective of collecting the contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. There are currently no other financial assets which are measured at fair value through other comprehensive income or profit or loss.

3. Critical Accounting Judgements

Critical judgements in applying the Company's accounting policies

The Company has determined that there are no critical judgements or estimates in the Company's accounting policies.
