Notes to the financial statements for the year ended 31 December 2012

1 Accounting Policies

Basis of preparation

These financial statements have been prepared on the going concern basis in accordance with International Financial Reporting Standards and IFRIC interpretations endorsed by the EU and with those parts of the Companies Act 2006 applicable to companies reporting under IFRS. The financial statements have been prepared under the historical cost convention.

No income statement or cash flow statement has been prepared for the year as the Company has neither traded nor had any movement of cash in either of the years ended 31 December 2012 or 31 December 2011.

Loans and receivables

Loans and receivables are non-derivative financial assets or liabilities with fixed or determinable payments that are not quoted in an active market. Assets in this category are recognised at amortised cost and included in trade and other receivables, and loans in the balance sheet.

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Company will not be able to collect all amounts due according to the original terms of the receivables.

2 Non-current liabilities

	2012 £	2011 £
Amounts due to group undertakings	254,394	254,394

Amounts due to group undertakings are unsecured, interest free and have no stated repayment date. Although technically repayable on demand, they have been classified as non-current payables because the parent company has indicated that it will not seek repayment within twelve months of the date of the financial statements. All amounts due to group undertakings are payable to Vernalis Research Limited.
