The company is entitled to exemption from audit under Section 477 of the Companies Act 2006 for the year ended 30 April 2010

The members have not required the company to obtain an audit of its financial statements for the year ended 30 April 2010 in accordance with Section 476 of the Companies Act 2006

The director acknowledges her responsibilities for

- ensuring that the company keeps accounting records which comply with Sections 386 and 387 of the Companies Act 2006 and
- preparing financial statements which give a true and fair view of the state of affairs of the company as at the end of each financial year and of its profit or loss for each financial year in accordance with the requirements of Sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to financial statements, so far as applicable to the company

The abbreviated accounts have been prepared in accordance with the special provisions of Part 15 of the Companies Act 2006 relating to small companies.

The financial statements were approved by the director on 6 December 2010 and were signed by:

A Dean - Director

Investment property

The company's investment properties are held for long-term investment. Investment properties are accounted for in accordance with SSAP 19 as follows:

- (i) Investment properties are revalued annually. The surplus or deficit on revaluation is transferred to the revaluation reserve unless a deficit below original cost, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year, and

- (ii) no depreciation is provided in respect of freehold investment properties

Although the Companies Act would normally require the systematic annual depreciation of fixed assets, the directors believe that the policy of not providing depreciation is necessary in order to give a true and fair view, since the current value of investment properties, and changes to that current value, are of prime importance rather than a calculation of systematic annual depreciation. Depreciation is only one of the many factors reflected in the annual valuation, and the amount which might otherwise have been included cannot be separately identified or quantified.

Deferred tax

Deferred tax
Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date
