Notes to the accounts

For the year ended 31 December 2011

1 Accounting policies

Basis of preparation

The principal accounting policies adopted in the preparation of the financial statements are set out below. The policies have been consistently applied to all the years presented, unless otherwise stated.

The Company has taken advantage of the exemption under S400 of the Companies Act 2006 not to prepare group accounts as it is a wholly owned subsidiary of Parity group plc, which itself prepares group accounts.

These financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the EU (IFRSs and IFRIC interpretations) issued by the International Accounting Standards Board (IASB) and with those parts of the Companies Act 1985 applicable to companies preparing their accounts under IFRS.

Investments

Investments in subsidiary undertakings are recorded at cost. The carrying value of an investment is reviewed for impairment if events or changes in circumstances indicate that the carrying value may not be recoverable.

Financial assets

The company classifies its financial assets into one of the following categories, depending on the purpose for which the asset was acquired. The company's accounting policy for each category is as follows:

Loans and receivables These assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise principally through the provision of goods and services to customers (trade debtors), but also incorporate other types of contractual monetary asset. They are carried at cost less any provision for impairment.

Financial liabilities

Trade payables and other short-term monetary liabilities are recognised at cost.

Changes in accounting policies standards, amendments and interpretations of published standards not yet effective

The Company has reviewed new standards, amendments and interpretations of published standards effective for 2011 and those not yet effective. No such standard has or is expected to have an impact on these financial statements, primarily owing to the company's dormant status.

Significant accounting estimates and judgements

The preparation of financial statements under IFRS requires the company to make estimates and assumptions that affect the application of policies and reported amounts. Estimates and judgements are continually evaluated and are based on historical experience and other factors including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these estimates. The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year are discussed below.

Impairment of investments Investments are reviewed for impairment if events or changes in circumstances indicate that the carrying amount may not be recoverable. When a review for impairment is conducted, the recoverable amount is determined based on value-in-use calculations prepared on the basis of management assumptions and estimates.

2 Employees

Apart from the directors, the company had no employees during the year (2010: nil). The directors had contracts of employment with another company within the Parity group.

3 Profit and loss account

The Company has not traded during this year and made no recognisable gains or losses.
