Abbreviated Balance Sheet at 31 July 2010

..... continued

For the year ending 31 July 2010 the company was entitled to exemption under section 477 of the Companies Act 2006 relating to small companies

The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006

The directors acknowledge their responsibilities for complying with the requirements of the Act with respect to accounting records and the preparation of accounts

These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies regime and in accordance with the Financial Reporting Standard for Smaller Entities (effective 2008)

Approved by the Board on 20/7/11 and signed on its behalf by

Mr Stephen John Hollis
Director

B & B Precision Engineering (Huddersfield) Limited
Notes to the Abbreviated Accounts for the Year Ended 31 July 2010

1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Going concern

During the year the company has sustained a loss of £58,370 and as a result has net liabilities of £57,331 at the year end. The accounts have, however, been prepared on the going concern basis. The validity of this is dependent on the continued support of the company's bankers and a connected company. Confirmation of the connected company's continued support has been obtained.

Management accounts to 28 February 2011 indicate that the company has increased its turnover resulting in a net profit for the period. It is the director's belief that this improved performance will continue.

Turnover

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers.

Goodwill

Positive goodwill is capitalised, classified as an asset on the balance sheet and amortised on a straight line basis over its useful economic life. It is reviewed for impairment at the end of the first full financial year following the acquisition and in other periods if events or changes in circumstances indicate that the carrying value may not be recoverable.

Amortisation

Amortisation is provided on intangible fixed assets so as to write off the cost, less any estimated residual value, over their estimated useful economic life as follows:

Goodwill	Fully amortised
----------	-----------------

Depreciation

Depreciation is provided on tangible fixed assets so as to write off the cost or valuation, less any estimated residual value, over their expected useful economic life as follows:

Motor vehicles	25% reducing balance
Office equipment	20% reducing balance
Property improvements	Fully depreciated
Plant and machinery	20% reducing balance

Stocks, work in progress and long-term contracts

Stock is valued at the lower of cost and net realisable value, after due regard for obsolete and slow moving stocks. Net realisable value is based on selling price less anticipated costs to completion and selling costs.

B & B Precision Engineering (Huddersfield) Limited

Notes to the Abbreviated Accounts for the Year Ended 31 July 2010

..... *continued*

Hire purchase and leasing

Assets held under finance leases, which are leases where substantially all the risks and rewards of ownership of the asset have passed to the company, are capitalised in the balance sheet as tangible fixed assets and are depreciated over the shorter of the lease term and their useful lives. The capital elements of future obligations under the leases are included as liabilities in the balance sheet. The interest element of the rental obligation is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding. Assets held under hire purchase agreements are capitalised as tangible fixed assets and are depreciated over the shorter of the lease term and their useful lives. The capital element of future finance payments is included within creditors. Finance charges are allocated to accounting periods over the length of the contract and represent a constant proportion of the balance of capital repayments outstanding.

Pensions

The company operates a defined contribution pension scheme. Contributions are recognised in the profit and loss account in the period in which they become payable in accordance with the rules of the scheme.

2 Fixed assets

	Intangible assets £	Tangible assets £	Total £
