Under company law, the director must not approve the financial statements unless he is satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the director is required to:

NOTES TO THE ABRIDGED FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2020

1. ACCOUNTING POLICIES

Statement of compliance

The abridged financial statements have been prepared in accordance with FRS 102 Section 1A - The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006, including the provisions permitting an abridged profit and loss account and balance sheet to be prepared.

General information

Active Link Limited (Company Number: 03653084) is a private company limited by shares and incorporated in England and Wales. Its registered office is 1-7 Park Road, Caterham, Surrey CR3 5TB.

Going concern

The company is dependent on continuing finance being made available by its shareholder. Continuing finance is required both to enable the company to meet its liabilities as they fall due and to continue operating without immediate realisation of all its assets.

The director believes that continuing finance will be available and that it is therefore appropriate to prepare the financial statements on a going concern basis. However, should continuing finance not be available, the going concern basis would be invalid and adjustments would have to be made to reduce the value of assets to their realisable amount, to provide for any further liabilities which might arise and to reclassify fixed assets as current assets.

Tangible assets

Tangible fixed assets held for the company's own use are stated at cost less accumulated depreciation and accumulated impairment losses.

Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on a reducing balance basis at rates of 25%-30% per annum.

At each balance sheet date, the company reviews the carrying amount of its tangible fixed assets to determine whether there is any indication that any items have suffered an impairment loss. If any such indication exists, the recoverable amount of an asset is estimated in order to determine the extent of the impairment loss, if any. Where it is not possible to estimate the recoverable amount of the asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Taxation

Taxation represents deferred tax.

The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on all timing differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.
