Notes to the Financial Statements
for the Year Ended 31 December 2021

1. STATUTORY INFORMATION

The White Paper Conference Co Limited is a private company, limited by shares, registered in England and Wales. The company's registered number is 03714517 and its registered address is 2nd Floor, Heathmans, House, 19 Heathmans Road, London, SW6 4TJ.

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

The financial statements have been prepared in accordance with the micro-entity provisions of the Companies Act 2006 and FRS 102 The Financial Reporting Standard applicable to the Micro-entities Regime.

Significant judgements and estimates

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the opinion of the directors there are no judgements or key sources of estimation uncertainty that affect the preparation of the financial statements.

Turnover

Turnover is stated net of VAT. Turnover represents the value of services provided under contracts to the extent that there is a right to consideration and is recorded at the value of the consideration due. Where a contract has only been partially completed at the balance sheet date, turnover represents the value of the services provided to date based on a proportion of the total contract value. Where payments are received from customers in advance of services provided, the amounts are recorded as Deferred Income and included as part of Creditors due within one year.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to profit or loss on a straight line basis over the period of the lease.

Pension costs and other post-retirement benefits

The company makes payments to a defined contribution pension scheme. Contributions payable to the pension scheme are charged to profit or loss in the period to which they relate.
