Notes to the Financial Statements for the Year Ended 31 December 2017

1. STATUTORY INFORMATION

Beal (UK) Limited is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Related party exemption

The company has taken advantage of exemption, under the terms of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland', not to disclose related party transactions with wholly owned subsidiaries within the group.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

Revenue from the sale of goods is recognised when goods are delivered and legal title passes.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost less accumulated amortization and impairment losses, if any. Amortization is calculated on a straight line basis over the useful economic life of 10 years.

In the current financial year, the company has implemented a true and fair override. The company's investment in a subsidiary which was acquired at the close of the 2015 trading year has been reclassified as goodwill arising on acquisition. This follows from the hive up of the business activity of the subsidiary into the company and the subsequent dissolution of the subsidiary entity. The amortization charge in 2017 represents the charge for both the 2016 and 2017 trading years.

Intangible assets

Intangible assets are initially measured at cost. After initial recognition, intangible assets are measured at cost less any accumulated amortisation and any accumulated impairment losses.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Plant and machinery - 15% on reducing balance Fixtures and fittings - 15% on reducing balance

Tangible fixed assets held for the companies own use are stated at cost less accumulated depreciation and accumulated impairment losses.

At each balance sheet date the company reviews the carrying amount of its tangible fixed assets to determine whether there is any indication that any items have suffered an impairment loss. If any such indication exists, the recoverable amount of an asset is estimated in order to determine the extent of the impairment loss.

Investments in subsidiaries

Investments in subsidiary undertakings are recognised at cost.

2. ACCOUNTING POLICIES - continued

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Purchases of goods are recognised as stock at the point at which title to the goods passes to the company which in respect of goods acquired from overseas is at the point of delivery to the company warehouse facilities.

Payments made in advance for goods ordered from overseas are recognised by the company as debtors (deposits paid).

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Foreign currencies

Assets and liabilities in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into sterling at the rate of exchange ruling at the date of transaction. Exchange differences are taken into account in arriving at the operating result.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

Investment in subsidiaries

Investment in subsidiaries are accounted for at cost less impairment in the financial statements.

3. EMPLOYEES AND DIRECTORS
