For the year ending 31st December 2016 the company was entitled to exemption from audit under section 477 of the Companies Act 2006 relating to small companies. The members have not required the company to obtain an audit in accordance with section 476 of the Companies Act 2006. The directors acknowledge their responsibility for complying with the requirements of the Act with respect to accounting records and for the preparation of accounts. These accounts have been prepared in accordance with the provisions applicable to companies subject to the small companies' regime.

On Behalf of the Board

John W. Schoen

Director

Notes to the Financial Statements

For the year ended 31 December 2016

1. Accounting Policies

1.1 Basis of preparation

The financial statements are prepared in accordance with generally accepted accounting principles under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2007).

1.2 Turnover

Turnover represents the fair value of goods, excluding value added tax, collected by third party customers in the accounting period. Goods are deemed to have been sold to customers, when the customer has access to the significant benefits inherent in the goods and exposure to the risks inherent in those benefits.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are shown at the directors' assessment of fair value on the acquisition of a business or otherwise at original historical cost. Depreciation is provided at rates calculated to write off the cost or valuation, of each asset, other than freehold land, on a straight line basis over its remaining expected useful life, as follows:

Computer equipment

3 years

1.4 Foreign currencies

Trading activities denominated in foreign currencies are recorded in Sterling at rates approximating actual exchange rates as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are reported at the rates of exchange prevailing at the year end. Any gain or loss arising from a change in exchange rates subsequent to the date of the transaction is reported as an exchange gain or loss in the profit and loss account.

1.5 Taxation

Corporation tax, including UK corporation tax and foreign tax, is provided on the company's taxable profits, at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

Deferred tax is recognized in respect of all timing differences that have originated but not reversed at the balance sheet date. Provision is made at the rates expected to apply when the timing differences reverse. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in taxable profits in periods different from those in which they are recognized in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognized only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Notes to the Financial Statements

1.6 Pensions

The Company contributes to an external defined contribution pension scheme. The assets of the scheme are held separately from those of the group in an independently administered fund. The amount charged against profits represents the contribution payable to the scheme in respect to the accounting period.

2. Tangible fixed assets
