## WYKO Holdings Limited

### Notes to the financial statements for the year ended 31 December 2012

#### 1 Principal accounting policies

The financial statements have been prepared in accordance with the Companies Act 2006 and applicable Accounting Standards in the United Kingdom. A summary of the principal policies which have been applied consistently, is set out below.

##### Basis of accounting

The financial statements are prepared on a going concern basis under the historical cost convention. The UK ultimate parent company, ERIKS UK Holdings Limited, has provided assurances that it will provide such funding as required to enable the Company to meet its financial obligations as they fall due for at least the next twelve months.

##### Consolidation

The company is a wholly owned subsidiary of SHV Holdings N.V., a company incorporated in The Netherlands, and as provided by S400 Companies Act 2006, is exempt from the preparation of group financial statements.

##### Deferred taxation

In accordance with Financial Reporting Standard (FRS) 19, 'Deferred Taxation', deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or to pay less tax in the future have occurred at the balance sheet date. Timing differences are differences between the company's taxable profits and its results as stated in the financial statements. Deferred tax assets are recognised to the extent that they are regarded recoverable and that there will be suitable taxable profits from which the future reversal can be deducted.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on an undiscounted basis.

##### Foreign currencies

Transactions in foreign currencies are translated into sterling at the rate of exchange on the day of the transaction or at a contracted rate if it is covered by a forward contract. Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rate ruling at the balance sheet date or, if appropriate, any forward contract rates. Exchange differences arising from these translations are taken to the profit and loss account.

##### Pensions

The company operates a number of defined contribution pension schemes. The assets of these schemes are invested and managed independently of the finances of the company. Contributions to the schemes have been charged to the profit and loss account in the year of payment.

##### Investments

Investments in subsidiary undertakings are recorded at cost plus incidental expenses less any provision for impairment. Impairment reviews are performed by the directors when there has been an indication of potential impairment.

##### Cash flow statement

The company is a wholly owned subsidiary of SHV Holdings N.V. and the cash flows of the company are included in the consolidated cash flow statement of that company. Consequently the company is exempt under the terms of FRS 1 (revised 1996) from publishing a cash flow statement.

This rate change was substantively enacted in March 2012. Therefore, the company's profits for the accounting period are taxed at an effective rate of 24.5% (2011: 26.5%).

On 17 July 2012, Finance Bill 2012 was given Royal Assent, which stated that the main rate of Corporation tax was to be reduced to 23% on 1 April 2013. We expect further reductions to be included in future Finance Bills. As a result of the above, the deferred tax balances at 31 December 2012 have been measured at 23%.
