NOTES TO THE ABBREVIATED ACCOUNTS
YEAR ENDED 31 DECEMBER 2010

1. ACCOUNTING POLICIES

Basis of accounting

The financial statements have been prepared under the historical cost convention, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Investment income

The turnover shown in the profit and loss account represents amounts invoiced during the year

Investment properties

Investment properties are shown at their open market value. The surplus or deficit arising from the annual revaluation is transferred to the investment revaluation reserve unless a deficit, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year.

This is in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) which, unlike the Companies Act 2006, does not require depreciation of investment properties. Investment properties are held for their investment potential and not for use by the company and so their current value is of prime importance. The departure from the provisions of the Act is required in order to give a true and fair view.

Foreign currencies

Assets and liabilities in foreign currencies are translated into euro at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are translated into euro at the rate of exchange ruling at the date of the transaction. Exchange differences are taken into account in arriving at the operating profit.

Going concern

The financial statements have been prepared on the going concern basis. This is considered appropriate as the directors are of the opinion that the shareholders of the company will continue to support it, and provide adequate funding when necessary to enable it to meet its obligations for the foreseeable future, being for a period of at least twelve months from the date of approval of the financial statements.
