## Notes to the abbreviated financial statements

at 31 December 2011

### 1. Accounting policies

#### ***Basis of preparation***

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

#### ***Going concern***

The financial statements have been prepared on the going concern basis as the parent undertaking has agreed to defer payment of intercompany liabilities and provide sufficient funds for the company to meet its external liabilities as they fall due for a period of at least one year from the date of signing of the financial statements

#### ***Tangible fixed assets***

All fixed assets are initially recorded at cost

Depreciation is provided on all tangible fixed assets, at rates calculated to write off the cost, less estimated residual value based on prices prevailing at the date of acquisition of each asset evenly over its expected useful life, as follows

Long leasehold property	–	50 years
Plant and machinery	–	3 to 15 years
Equipment	–	3 to 10 years

The carrying value of the tangible fixed assets are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable

#### ***Government grants***

Government grants in respect of capital expenditure are credited to a deferred income account and are released to the profit and loss account over the expected useful lives of the relevant assets by equal annual instalments. Grants of a revenue nature are credited to income so as to match them with the expenditure to which they relate

#### ***Stocks***

Stocks are stated at the lower of cost and net realisable value. Cost includes all costs incurred in bringing each product to its present location and condition, as follows

Consumables and spare parts	–	purchase cost on a first-in, first-out basis
Finished goods	–	cost of direct materials and labour plus attributable overheads based on a normal level of activity

Net realisable value is based on estimated selling price less any further costs expected to be incurred to completion and disposal

### 1. Accounting policies (continued)

#### *Deferred taxation*

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exception

- Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date

#### *Foreign currencies*

The company's functional currency is the US Dollar. Accordingly, the directors believe it is more appropriate to present the financial statements in that currency. The exchange rate as of 31 December 2011 was USD \$1 = £0.65

Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction

Monetary assets and liabilities denominated in currencies other than the US Dollar are retranslated at the rate of exchange ruling at the balance sheet date. All exchange gains or losses shall be taken to the profit and loss account as part of profit or loss for the year from ordinary activities
