James Reyker Limited**Notes to the financial statements****Year ended 31 March 2017**

1. General information

James Reyker Limited is a private company limited by shares. It is both incorporated and domiciled in England and Wales (registered number 03794836). The address of the registered office is 16-20 Hurlingham Business Park, Sullivan Road, London, SW6 3DU. The financial statements are prepared in sterling, which is the functional currency of the company.

2. Accounting policies**2.1 Basis of accounting and statement of compliance**

The financial statements have been prepared under the historical cost convention and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the company's accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Going concern

The financial statements have been prepared on a going concern basis. The directors are continually reviewing future projections for the business and the financing arrangements that are in place, and are satisfied that the business will continue to have access to sufficient funds to meet its liabilities.

2.3 Turnover

The turnover shown in the statement of income and retained earnings represents amounts invoiced during the year.

2.4 Taxation

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, tax is recognised in other comprehensive income or directly in equity, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Deferred tax is recognised in respect of all material timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date that are expected to apply to the reversal of the timing difference.

2.5 Investments

Investments in subsidiaries are stated at cost, impairment reviews are carried out as required. At 31 March 2017, the directors consider that the value has not been impaired.

2.6 Cash and cash equivalents

Cash and cash equivalents consist of cash on hand and balances with banks. Cash and cash equivalents are measured at fair value.

James Reyker Limited**Notes to the financial statements****Year ended 31 March 2017****2. Accounting policies (continued)****2.7 Financial instruments**

The company only enters into basic financial instrument transactions that result in the recognition of financial assets and liabilities like trade and other debtors and creditors.

Debt instruments that are payable or receivable within one year, typically trade and other creditors or debtors, are measured, initially and subsequently, at the undiscounted amount of the cash or other consideration expected to be paid or received.

Financial assets that are measured at cost are assessed at the end of each reporting period for objective evidence of impairment. If objective evidence of impairment is found, an impairment loss is recognised in the statement of income and retained earnings. The impairment loss is measured as the difference between an asset's carrying amount and best estimate of the recoverable amount, which is an approximation of the amount that the company would receive for the asset if it were to be sold at the statement of financial position date.

Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is an enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

3. Judgments in applying accounting policies and key sources of estimation uncertainty

When preparing the financial statements, management is required to make estimates and assumptions which affect reported income, expenses, assets and liabilities. Use of available information and application of judgment are inherent in the formation of estimates, together with past experience and expectations of future events that are believed to be reasonable under the circumstances. Actual results in the future could differ from such estimates.

Due to the simplicity of the company's year-end financial position, the directors consider there to be no critical judgements, estimates and assumptions used in the preparation of these financial statements.

4. Financial risk management

The board of directors has overall responsibility for the establishment and oversight of the company's risk management framework. The board is responsible for developing and monitoring the company's risk management strategy and policies. There have been no changes to the company's exposures to risk or the methods used to measure and manage these risks during the year.

The directors do not feel the company is exposed to any significant financial risk.

5. Operating loss

Operating loss is stated after charging:

	2017 £	2016 £
Directors' remuneration	-	-
Auditor's fees	<u>2,600</u>	<u>2,525</u>
