NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 30 APRIL 2016

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

These revised financial statements replace the original and are now the statutory accounts for the company. These financial statements have been prepared as at 30 April 2016 and not at the revised date. They do not include any events which occurred between these dates.

The financial statements indicate an overdrawn balance sheet and this has arisen due to the balance owed to the directors. The directors have confirmed they will not seek repayment of this balance and will continue to support the company. The financial statements do not include any adjustments that would result from the withdrawal of this support.

1.2 Turnover

Turnover represents, firstly, fees for consultancy services net of VAT and trade discounts, which is recognised when the services have been provided. It also includes rents from letting of properties, net of VAT, which is recognised on a time apportionment basis.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Computer	25% p.a. straight line
Fixtures, fittings & equipment	10% p.a. reducing balance

Investment properties are included in the balance sheet at their open market value, as valued by the director at 30 April 2016 and not depreciated. Although this policy is in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015), it is a departure from the general requirement of the UK Companies Act for all tangible assets to be depreciated. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified.

1.4 Deferred taxation

Deferred taxation is provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. The deferred tax balance has not been discounted.
