Notes to the Abbreviated Accounts

For the year ending 30 November 2014

1 Accounting policies

Basis of accounting

The financial statements have been prepared under the historical cost convention, modified to include the revaluation of certain fixed assets, and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

The turnover shown in the profit and loss account represents rents and similar charges receivable.

Investment properties

Investment properties are shown at their open market value. The surplus or deficit arising from the annual revaluation is transferred to the investment revaluation reserve unless a deficit, or its reversal, on an individual investment property is expected to be permanent, in which case it is recognised in the profit and loss account for the year. This is in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008) which, unlike the Companies Act 2006, does not require depreciation of investment properties.

Investment properties are held for their investment potential and not for use by the company and so their current value is of prime importance. The departure from the provisions of the Act is required in order to give a true and fair view.

Fixed Assets

All fixed assets are initially recorded at cost.
