The financial statements have been prepared under the historical cost convention.

**Significant judgements and estimates**

Preparation of the financial statements requires management to make significant judgements and estimates. The estimates and associated assumptions are based on historical experience and current relevant factors. The assumptions are revised on an ongoing basis and any revisions are recognised in the period in which they are revised. The items in the financial statements where these judgements and estimates have been made include:

**Provision for site restatement:**

Management have considered the present obligations of the company in respect of restoration and clean up costs regarding freehold land which has been used for waste disposal. Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

|                     |   |
|---------------------|---|
| Freehold property   | - 2% on cost to residual value, land is not depreciated |
| Plant and machinery | - 18% on reducing balance                               |
| Site Development    | - 20% on cost   |

**Stocks**

Stock is valued at the lower of cost and net realisable value and represents landfill site preparation costs less the estimated consumption to date.

**Hire purchase and leasing commitments**

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives.
