2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the sale of goods and provision of services in the ordinary course of the company's activities. Turnover is shown net of value added tax, returns, rebates and discounts.

Turnover from the sale of goods is recognised when the significant risks and rewards of ownership of the goods have been transferred to the buyer.

Tax

Current tax represents the amount of tax payable or receivable in respect of the taxable profit (or loss) for the current or past reporting periods. It is measured at the amount expected to be paid or recovered using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Notes to the Unaudited Financial Statements for the Year Ended 31 May 2021 (continued)

2 Accounting policies (continued)

Deferred tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements and on unused tax losses or tax credits in the company. Deferred tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

Tangible assets

Tangible assets are stated in the balance sheet at cost less any subsequent accumulated depreciation and accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation

Depreciation is charged so as to write off the cost of assets, over their estimated useful lives, as follows:

Asset class	Depreciation method and rate
Fixtures, fittings and equipment	15% per annum on a reducing balance basis and 33.3% per annum on a straight line basis
Motor vehicles	25% per annum on a straight line basis
Buildings for hire	not depreciated

Goodwill

Goodwill arising on business combinations is capitalised, classified as an asset on the balance sheet and amortised on a straight line basis over its useful life. The period chosen for writing off goodwill is 20 years. Provision is made for any impairment.

Amortisation

Amortisation is provided on intangible assets so as to write off the cost, less any estimated residual value, over their useful life as follows:

Asset class	Amortisation method and rate
Goodwill	Straight line over 20 years

Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the first-in, first-out (FIFO) method. Provision is made for damaged, obsolete and slow-moving stock where appropriate.

Leases

Rentals in which substantially all the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to profit or loss on a straight-line basis over the period of the lease.

Hire purchase agreements are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee.

Assets held under finance leases are capitalised and depreciated over their useful lives. Obligations under such agreements are included in creditors net of the finance charge allocated to future periods. The finance element of the rental payment is charged to the profit and loss account so as to produce a constant periodic rate of charge on the net obligation outstanding in each period.

Defined contribution pension obligation

The company operates a defined contribution scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions are charged to the profit and loss account.

3 Staff numbers

The average number of persons employed by the company (including the director) during the year, was 7 (2020 - 5).
