## **Directors' report for the year ended 31 December 2020 (continued)**

### **Statement of Directors' responsibilities**

The Directors are responsible for preparing the Directors' report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law, the Directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 101 'Reduced Disclosure Framework' and applicable law). Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK accounting standards, comprising FRS 101, have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. The Directors are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

### **Modern Slavery**

The Company's approach to the Modern Slavery Act 2015 is set by the Group. Each year, as part of their governance arrangements, the Group formally reviews and approves the approach to the Modern Slavery Act 2015 and has confirmed that the approach is still valid for 2020.

### **Going concern**

Having assessed the principal risks and other matters, including the potential impact of the COVID-19 pandemic, the Directors are of the opinion that the current level of activity remains sustainable. In relation to the challenges that arise from the COVID-19 pandemic, the considerations have included the potential risks related to services provided by the Company. The Directors have taken into account that as part of the Group, the Company has the ability to request support from the Group where necessary and can take actions to ensure business continuity through operational channels, as well as the ability to manage variable costs. On the basis of those considerations, the Directors believe that it remains appropriate to adopt the going concern basis of accounting in preparing the financial statements.

### **Impact of Brexit**

The UK left the EU on 31 January 2020 and the Brexit transition period ended on 31 December 2020 with a Trade and Cooperation Agreement ('a deal') in place between the UK and EU. The Group's overriding priority in preparing for the UK's exit from the EU has been to maintain continuity of supply of our medicines and vaccines to people in the UK and EU. The Group's post-Brexit operating model has been implemented, and we continue to work closely with Governments in both the UK and EU, as well as our third parties, on the effective implementation of the deal and to ensure that our sector continues to thrive both in the UK and EU. Over the longer term, we continue to believe that Brexit will not have a material impact on our business.

The Company continues to monitor the situation closely, as this continues to be a dynamic and an uncertain situation, with the ultimate severity, duration and impact unknown at this point including potential impacts on its activity. The situation could change at any time and there can be no assurance that the COVID-19 pandemic will not have a material adverse impact on the future results of the Company.

## **Notes to the financial statements for the year ended 31 December 2020**

### **2 Summary of significant accounting policies (continued)**

#### **(b) Ultimate and immediate parent undertaking**

The Company is a wholly owned subsidiary of the ultimate parent company. GlaxoSmithKline plc, a company registered in United Kingdom (England), is the Company's ultimate parent undertaking and controlling party. The largest and smallest group of undertakings for which group financial statements are prepared and which include the results of the Company are the consolidated financial statements of GlaxoSmithKline plc. Copies of the consolidated financial statements can be obtained from the Company Secretary, GlaxoSmithKline plc, 980 Great West Road, Brentford, Middlesex TW8 9GS. The immediate parent undertaking is Glaxo Group Limited. These financial statements are separate financial statements.

#### **(c) Foreign currency transactions**

Foreign currency transactions are booked in the functional currency of the Company at the exchange rate ruling on the date of the transaction. Foreign currency monetary assets and liabilities are translated into the functional currency at rates of exchange ruling at the balance sheet date. Exchange differences are included in the statement of comprehensive income. The functional and presentation currency of the Company is Pounds Sterling.

#### **(d) Expenditure**

Expenditure is recognised in respect of services received when supplied in accordance with contractual terms.

#### **(e) Finance income**

Finance income is recognised on an accrual basis using the effective interest method.

#### **(f) Trade and other receivables**

Trade and other receivables are carried at original invoice amount less allowance for expected credit losses. Expected credit losses are calculated in accordance with the approaches permitted by IFRS 9. For trade receivables, the simplified approach is used by using a provision matrix applying lifetime historical credit loss experience to the trade receivables. The expected credit loss rate varies depending on whether and the extent to which settlement of the trade receivables is overdue and it is also adjusted as appropriate to reflect current economic conditions and estimates of future conditions. For the purpose of determining credit loss rates, customers are classified into groupings that have similar loss patterns. The key drivers of the loss rate are the nature of the business unit and the location and type of customer.

For other receivables, the general approach is used where the Company recognises the losses that are expected to result from all possible default events over the expected life of the receivable, when there has been a significant increase in credit risk since initial recognition. However, if the credit risk on the receivable has not increased significantly since initial recognition, the Company measures the expected loss allowance based on losses that are expected to result from default events that are possible within 12 months after the reporting date. When a trade and other receivable is determined to be uncollectable it is written off, firstly against any expected credit loss allowance available and then to the statement of comprehensive income.

Subsequent recoveries of amounts previously provided for are credited to the statement of comprehensive income.

#### **(g) Trade and other payables**

Trade and other payables are initially recognised at fair value and then held at amortised cost using the effective interest method.

**Notes to the financial statements for the year ended 31 December 2020**

**2 Summary of significant accounting policies (continued)**

**(h) Taxation**

Current tax is provided at the amounts expected to be paid or refunded applying the rates that have been enacted or substantively enacted at the balance sheet date.

**(i) Share capital**

Ordinary shares are classified as equity.

**3 Critical accounting judgments and key sources of estimation uncertainty**

In preparing the financial statements, the Directors are required to make estimates and assumptions that affect the amounts of assets, liabilities, revenue and expenses reported in the financial statements. Actual amounts and results could differ from those estimates.

The Directors do not consider that there are any critical accounting judgments that have been made in the process of applying the Company's accounting policies and that have had a significant effect on the amounts recognised in the financial statements. There have been no significant estimates or assumptions which are likely to cause a material adjustment to the carrying amount of assets and liabilities within the next financial year.

<b>The following items have been charged / (credited) in operating profit:</b>

**7 Taxation**

	2020 £'000	2019 £'000
Income tax charge on profit		
Current tax:		
UK corporation tax at 19.00% (2019: 19.00%)	-	43
Total current tax	-	43
Total tax charge for the year	-	43

The tax assessed for the year is lower (2019: same) as the standard rate of corporation tax in the UK for the year ended 31 December 2020 of 19.00% (2019: 19.00%). The differences are explained below:

	2020 £'000	2019 £'000
<b>Reconciliation of total tax charge</b>		
Profit on ordinary activities before tax	887	228
Tax on ordinary activities at the UK statutory rate 19.00% (2019: 19.00%)	168	43
Effects of:		
Income not taxable for tax purposes	(7)	-
Group relief claimed	(161)	-
Total tax charge for the year	-	43

Factors that may affect future tax charges:

A UK corporation rate of 19% (effective 1 April 2020) was substantively enacted on 17 March 2020, reversing the previously enacted reduction in the rate from 19% to 17%. There is no impact of this change on the tax charge as there are no instances of deferred taxation recognised in the statement of comprehensive income or directly in equity in either the current or prior year.

An intention to increase the UK corporation tax rate from 19% to 25% (effective 1 April 2023) was announced in the UK Budget on 3 March 2021. This may have an impact on the Company's tax charge of future years accordingly.
