**Notes to the Abbreviated Accounts
for the Year Ended 30 June 2014**

1. ACCOUNTING POLICIES

Basis of preparing the financial statements

The financial statements have been prepared on a going concern basis. This assumes that the company will continue in existence for the foreseeable future.

The validity of this assumption depends on the continued financial support of the directors and creditors.

If the company were unable to continue in operational existence, adjustments would have to be made to reduce the balance sheet values of assets to their recoverable amounts, and to provide for any further liabilities that might arise and to reclassify fixed assets as current assets. Long term liabilities would also have to be reclassified as current liabilities.

The directors believe that it is appropriate for the financial statements to be prepared on the going concern basis.

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents net invoiced sales of goods, excluding value added tax, except in respect of service contracts where turnover is recognised when the company obtains the right to consideration.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Aircraft	- 2% on cost
Other tangible assets	- 33% on reducing balance
Motor vehicles	- 33% on reducing balance

Stocks

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Hire purchase and leasing commitments

Rentals paid under operating leases are charged to the profit and loss account on a straight line basis over the period of the lease.
