3 Summary of significant accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

(a) Basis of preparation

These financial statements have been prepared under the historical cost convention, as modified by certain financial assets and liabilities measured at fair value through profit or loss, as when it is required by FRS 102.

(b) Going concern

The financial statements have been prepared on the basis that the Company is a dormant Company and has not traded during the financial period. The going concern basis is applicable as the Directors have a reasonable expectation that the Company has adequate resources to continue to meet its minimal ongoing obligations for a period of at least 12 months from the date of signing the financial statements.

(c) Debtors

Short term debtors are measured at the transaction price, less any impairment.

(d) Foreign currency transactions and balances

These financial statements are presented in pound sterling, the Company's functional and presentational currency.

Foreign currency transactions are translated into the functional currency using the opening spot exchange rate for the month in which the transaction occurs as an approximation for the actual rate at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated to pound sterling using the closing rate at the year-end. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.
