Notes (forming part of the financial statements)

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the financial statements.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules.

As the company is a wholly owned subsidiary of Carewatch Holdings Limited the company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with entities which form part of the group (or investees of the group qualifying as related parties). The consolidated financial statements of Carewatch Holdings Limited, within which this company is included, can be obtained from the address given in note 10.

Under FRS 1 the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company in its own published consolidated accounts.

Going concern

The Financial statements have been prepared on the going concern basis. The company has adequate forecast working capital and is fully supported by the parent company. The Directors consider that this should enable the company to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due for payment. Therefore the Directors believe that it remains appropriate to prepare the financial statements on a going concern basis.

Tangible fixed assets and depreciation

Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows:

Office equipment

33% reducing balance

Furniture and fittings

25% reducing balance

Operating leases

Operating lease rentals are charged to the profit and loss account on a straight line basis over the period of the lease.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

Turnover

Revenue is measured at the fair value of the consideration received and receivable and represents amounts received for services provided in the normal course of business, net of VAT. Revenue is recognised when services are supplied to external customers against orders received. The point of supply is generally defined as the point at which a service user has received care services from the company, which is usually provided on a daily basis.

Dividends on shares presented within shareholders' funds

Dividends are only recognised as a liability at that date to the extent that they are declared prior to the year end. Unpaid dividends that do not meet these criteria are disclosed in the notes to the financial statements.
