Mr R M Kohn - Director

**NOTES TO THE ABBREVIATED ACCOUNTS  
FOR THE YEAR ENDED 31 DECEMBER 2014**

**1. ACCOUNTING POLICIES****Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

**Turnover**

The turnover shown in the profit and loss account represents amounts derived from the sale of properties and professional services rendered. The sale is recognised at the point of exchange and when the invoices are raised or receipt of funds; whichever is the earlier.

**Other income**

Turnover represents gross rents receivable for the year. Turnover is recognised when rent becomes due under the lease agreement.

**Tangible fixed assets**

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Fixtures and fittings                      - 20% on reducing balance

**Stocks**

Stock of trading properties are valued at the lower of cost and net realisable value.

**Deferred tax**

The charge for taxation takes into account taxation deferred as a result of timing differences between the treatment of certain items for taxation and accounting purposes. In general, deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

However, deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted. Deferred tax is not recognised on revaluation gains. Deferred taxation is measured on a non-discounted basis at the tax rates that are expected to apply in the periods in which the timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.
