### **STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2022**

---

The Directors present their Strategic report on WPP Atticus. (the 'Company') for the year ended 31 December 2022.

#### **Principal activities**

The Company is a member of the WPP plc Group (the 'Group'). The Company's principal activity is to act as an investment holding company.

#### **Future developments**

The Directors do not envisage any major change to the nature of the business in the foreseeable future.

#### **Business review**

The Company made a profit for the year ended 31 December 2022 of £1,430,000 which will be transferred to reserves (2021: a profit of £553,000 which was transferred to reserves).

The Directors are of the opinion that the current level of activity and performance is sustainable, due to the positive financial position of the Company and will remain so for the foreseeable future. Further details are provided in the "Going concern and liquidity risk" section.

#### **Dividends**

The Company did not pay an interim dividend either in the current year or prior year to ordinary shareholders. No final dividend has been declared since the balance sheet date.

#### **Going concern and liquidity risk**

The Directors have assessed the ongoing business activities and the potential impact that the conflict in Ukraine and general global economic conditions may have on the liquidity, performance and financial position of the Company for at least the next 12 months from the date of signing the financial statements.

As the Company is primarily an investment holding company, there is no expected impact to the financial position of the Company as a result of general global economic conditions.

As at 31 December 2022, the Company has net current assets of £84,577,000 and net assets of £96,972,000 and can therefore meet its short and long-term obligations as they fall due.

After making enquiries, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for at least the next 12 months from the date of signing the financial statements. Additionally, the Company is a subsidiary of WPP plc and is supported by the overall WPP plc financing arrangements via the cash pooling arrangements.

The Directors therefore continue to adopt the going concern basis of accounting in preparing the financial statements.

#### **Financial risk management and principal risks and uncertainties**

The Directors of the Company have considered the principal risks and uncertainties affecting the Company as at 31 December 2022 and up to date of this report. As the Company is primarily an investment holding financing company with a limited amount of transactions, the Directors believe that the Company has no principal risks and uncertainties other than going concern and liquidity. Going concern and liquidity risks are discussed above.

**2. Accounting policies (continued)**

**2.3 Consolidation and ultimate parent company**

The Company is a wholly owned subsidiary of its ultimate parent company and as such has taken advantage of the exemption from preparing group financial statements under section 400 of the Companies Act 2006. WPP plc, a company incorporated in Jersey, is the Company's ultimate parent undertaking and controlling party. The largest group of undertakings for which group financial statements are prepared and which include the results of the Company are the consolidated financial statements of WPP plc. The registered address of WPP plc is 22 Grenville Street, St Helier, Jersey, JE4 8PX. Copies of the consolidated financial statements can be obtained from [www.wpp.com/investors](http://www.wpp.com/investors). The registered address of WPP Jubilee Limited is Sea Containers House, 18 Upper Ground, London, SE1 9GL, United Kingdom. The immediate parent undertaking is WPP US Investments BV. These financial statements are separate financial statements.

**2.4 Going concern**

The Directors have assessed the ongoing business activities and the potential impact that the conflict in Ukraine and general global economic conditions may have on the liquidity, performance and financial position of the Company for at least the next 12 months from the date of signing the financial statements.

As the Company is primarily an investment holding company, there is no expected impact to the financial position of the Company as a result of general global economic conditions.

As at 31 December 2022, the Company has net current assets of £84,577,000 and net assets of £96,972,000 and can therefore meet its short and long-term obligations as they fall due.

After making enquiries, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for at least the next 12 months from the date of signing the financial statements. Additionally, the Company is a subsidiary of WPP plc and is supported by the overall WPP plc financing arrangements via the cash pooling arrangements.

The Directors therefore continue to adopt the going concern basis of accounting in preparing the financial statements.

**2.5 Impact of new international reporting standards, amendments and interpretations**

No new accounting standards or IFRIC interpretations have had a material impact on the Company for the year ended 31 December 2022.

**2.6 Foreign currency translation**

**Functional and presentation currency**

The Company's functional and presentational currency is Pounds Sterling (£).

**Transactions and balances**

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

**NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2022**

---

**2. Accounting policies (continued)**

**2.6 Foreign currency translation (continued)**

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

**2.7 Interest income**

Interest income is recognised in profit or loss using the effective interest method.

**2.8 Interest expense**

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

**2.9 Taxation**

Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

**2.10 Trade and other receivables**

Short-term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

Trade and other receivables are carried at original invoice amount less any provisions for doubtful debts.

Provisions are made where there is evidence of a risk of non-payment, taking into account ageing, previous experience and general economic conditions. When a trade or other receivable is determined to be uncollectable it is written off, firstly against any provisions available and then to the income statement.

Subsequent recoveries of amounts previously provided for are credited to the income statement. Long-term receivables are discounted where the effect is material.

**2.11 Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from proceeds.

NOTES TO THE FINANCIAL STATEMENTS  
FOR THE YEAR ENDED 31 DECEMBER 2022

---

**3. Critical accounting judgements and key sources of estimation uncertainty**

In the application of the Company's accounting policies, the Directors are required to make judgements (other than those involving estimations) that have a significant impact on the amounts recognised and to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

**Critical accounting estimates and assumptions**

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities within the next financial year are addressed below:

*Impairment of investments*

Investments in subsidiaries and associates are held at cost less accumulated impairment losses. Annual impairment tests are carried out to ascertain if the carrying value of investments are impaired. These tests comprise a comparison between the carrying value of investment in subsidiary and associates and the net asset value of the subsidiary and associates. In some instances, valuations of subsidiary companies and associates are prepared. Valuations for impairment tests are based on established market multiples or risk-adjusted future cash flows over the estimated useful life of the asset, where limited, discounted using appropriate interest rates.

The assumptions relating to future cash flows, estimated useful lives and discount rates are based on business forecasts and are therefore inherently judgemental. Future events could cause the assumptions used in these impairment tests to change with a consequent adverse effect on the future results of the Company.

In the opinion of the Directors there are no critical judgements that have been made in the process of applying the accounting policies.

**4. Employees**

The Company has no employees (2021: nil).

**5. Directors' remuneration**

During the year all Directors of the Company were remunerated as executives of the Group by a fellow Group company. They received no remuneration in respect of their services to the Company (2021: £nil).
