STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2020

The Directors present their Strategic report on WPP Atticus. (the 'Company') for the year ended 31 December 2020.

Principal activities

The Company is a member of the WPP plc Group (the 'Group'). The Company's principal activity is to act as an investment holding company.

Future developments

The Directors do not envisage any major change to the nature of the business in the foreseeable future.

Business review

The Company made a profit for the year ended 31 December 2020 of £845,000 which will be transferred to reserves (2019: a profit of £1,086,000 which was transferred to reserves).

The Directors are of the opinion that the current level of activity and performance is sustainable, due to the positive financial position of the Company, and will remain so for the foreseeable future. Further details are provided in the "Going concern and liquidity risk" section.

Covid-19

As the Company does not have any employees, the Company did not access any financial support measures made available by the UK and other governments.

The Directors will continue to monitor, review and take any appropriate steps to respond to the impact of the Covid-19 pandemic in the Company, as well as recognise and address the other current and emerging risks and uncertainties we face as a business.

The extent of the continued impact of the Covid-19 pandemic on our business will depend on numerous factors that we are not able to accurately predict, including the duration and scope of the pandemic, government actions to mitigate the effects of the pandemic and the intermediate and long-term impact of the pandemic on our clients' spending plans.

Dividends

The Company paid no dividend in the current year nor prior year.

Going concern and liquidity risk

The Directors have assessed the ongoing business activities and the potential impact that the global outbreak of Covid-19 may have on the liquidity, performance and financial position of the Company for at least the next 12 months.

As the Company is primarily an investment holder, there is no expected impact to the financial position of the Company as a result of Covid-19.

As at 31 December 2020, the Company has net current assets of £6,312,000 and net assets of £94,989,000 and can therefore meet its short and long-term obligations as they fall due.

After making enquiries, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for at least the next 12 months from the date of signing the financial statements. Additionally, the Company is a subsidiary of WPP plc and is supported by the overall WPP plc financing and liquidity arrangements.

WPP ATTICUS.

STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2020

Going concern and liquidity risk (continued)

The Directors therefore continue to adopt the going concern basis of accounting in preparing the financial statements.

Financial risk management and principal risks and uncertainties

The Directors of the Company have considered the principal risks and uncertainties affecting the Company as at 31 December 2020 and up to date of this report. As the Company is primarily an investment holding financing company with a limited amount of transactions, the Directors believe that the Company has no principal risks and uncertainties other than going concern and liquidity. Going concern and liquidity risks are discussed above.

Financial key performance indicators

FOR THE YEAR ENDED 31 DECEMBER 2020**

2. Accounting policies (continued)

2.3 Exemption from preparing consolidated financial statements

The Company is a wholly owned subsidiary of its ultimate parent Company and as such has taken advantage of the exemption from preparing group financial statements under section 400 of the Companies Act 2006. WPP plc, a Company incorporated in Jersey, is the Company's ultimate parent undertaking and controlling party. The largest group of undertakings for which group financial statements are prepared and which include the results of the Company are the consolidated financial statements of WPP plc. The registered address of WPP plc is 13 Castle Street, St Helier, Jersey, JE1 1ES. Copies of the consolidated financial statements can be obtained from www.wpp.com/investors. The smallest group of undertakings for which group financial statements are prepared and which include the results of the Company are the consolidated financial statements of WPP Jubilee Limited, registered in the England and Wales. The registered address of WPP Jubilee Limited is Sea Containers House, 18 Upper Ground, London, SE1 9GL, United Kingdom. The immediate parent undertaking is WPP US Investments B.V. These financial statements are separate financial statements.

2.4 Going concern

The Directors have assessed the ongoing business activities and the potential impact that the global outbreak of Covid-19 may have on the liquidity, performance and financial position of the Company for at least the next 12 months.

As the Company is primarily an investment holder, there is no expected impact to the financial position of the Company as a result of Covid-19.

As at 31 December 2020, the Company has net current assets of £6,312,000 and net assets of £94,989,000 and can therefore meet its short and long-term obligations as they fall due.

After making enquiries, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for at least the next 12 months from the date of signing the financial statements. Additionally, the Company is a subsidiary of WPP plc and is supported by the overall WPP plc financing and liquidity arrangements.

The Directors therefore continue to adopt the going concern basis of accounting in preparing the financial statements.

2.5 Impact of new international reporting standards, amendments and interpretations

No new accounting standards or IFRIC interpretations have had a material impact on the Company for the year ended 31 December 2020.

2.6 Foreign currency translation

Functional and presentation currency

At each period end foreign currency monetary items are translated using the closing rate. Non-

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2020**

2. Accounting policies (continued)

2.6 Foreign currency translation (continued)

monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss.

2.7 Interest income

Interest income is recognised in profit or loss using the effective interest method.

2.8 Taxation

Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

2.9 Trade and other receivables

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

Trade and other receivables are carried at original invoice amount less any provisions for doubtful debts.

Provisions are made where there is evidence of a risk of non-payment, taking into account ageing, previous experience and general economic conditions. When a trade or other receivable is determined to be uncollectable it is written off, firstly against any provisions available and then to the income statement.

Subsequent recoveries of amounts previously provided for are credited to the income statement. Long-term receivables are discounted where the effect is material.

2.10 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.11 Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from proceeds.

**NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2020**

3. Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, the Directors are required to make judgements (other than those involving estimations) that have a significant impact on the amounts recognised and to make estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

Critical accounting estimates and assumptions

The Company makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing material adjustments to the carrying amounts of assets and liabilities within the next financial year are addressed below:

Impairment of investments

Investments in subsidiaries and associates are held at cost less accumulated impairment losses. Annual impairment tests are carried out to ascertain if the carrying value of investments are impaired. These tests comprise a comparison between the carrying value of investment in subsidiary and associates and the net asset value of the subsidiary and associates. In some instances, valuations of subsidiary companies and associates are prepared. Valuations for impairment tests are based on established market multiples or risk-adjusted future cash flows over the estimated useful life of the asset, where limited, discounted using appropriate interest rates.

The assumptions relating to future cash flows, estimated useful lives and discount rates are based on business forecasts and are therefore inherently judgemental. Future events could cause the assumptions used in these impairment tests to change with a consequent adverse effect on the future results of the Company.

In the opinion of the Directors there are no critical judgements that have been made in the process of applying the accounting policies.

4. Employees

The Company has no employees (2019: nil).

5. Directors' remuneration

During the year all Directors of the Company were remunerated as executives of the Group by a fellow Group company. They received no remuneration in respect of their services to the Company (2019: £nil).

Factors affecting tax charge for the year

The tax assessed for the year is lower than (2019 - lower than) the standard rate of corporation tax in the UK of 19% (2019 - 19%). The differences are explained below:

	2020 £'000	2019 £'000

Group relief	(161)	(206)
Total tax charge for the year	<u>-</u>	<u>-</u>

Factors that may affect future tax charges

The UK tax rate for the year ended 31 December 2020 is 19%. The reversal of a planned reduction to 17% was enacted in 2020, and therefore the rate used for deferred tax balances for 2020 is 19% (2019: 17%).

In the UK Budget on 3 March 2021, the Chancellor of the Exchequer announced an increase in the UK corporation tax rate from 19% to 25%, which is due to be effective from 1 April 2023. This change was not substantively enacted at the balance sheet date and hence has not been reflected in the measurement of deferred tax balances at the period end.
