STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2019

The Directors present their Strategic Report of the Company for the year ended 31 March 2019.

REVIEW OF BUSINESS AND FUTURE DEVELOPMENTS

The Company is a holding company for other Group companies and is not expected to trade on its own account in the future. The Strategic Report and financial statements of Stonehage Fleming (UK) Limited include a review of the Group's principal business risks and uncertainties and business development, performance and key performance indicators, including this Company.

FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of business risks. The Company's risk management policies seek to minimise potential adverse effects on financial performance.

Currency risk

Substantially all of the Company's turnover, expenses, assets and liabilities are denominated in Sterling. The Company ensures that the exposure to net assets held in foreign currency is monitored and managed as appropriate.

Interest rate risk

The Company's cash balances are exposed to interest rate risk arising from changes in interest rates. Management do not currently operate any hedging policies in respect of this risk. In Management's opinion there are no other significant interest bearing assets or liabilities.

Market risk

The majority of the Company's income is earned from other Group companies. Such income is not affected by market movements.

Credit risk

The Company is exposed to credit risk being the risk that receivables and cash are not collected. The majority of the Company's assets comprise amounts owed by Group undertakings and cash at bank. It is the Company's policy to hold cash with a small number of high quality institutions. Receivables are monitored regularly and Management believe that the Company's procedures adequately mitigate this risk.

STRATEGIC REPORT FOR THE YEAR ENDED 31 MARCH 2019 (CONTINUED)

FINANCIAL RISK MANAGEMENT (CONTINUED)

Brexit risk

In the UK the Stonehage Fleming group has established a Brexit committee to monitor developments and it has identified a number of specific risks related to Brexit, specifically potential obstacles in respect of pursuing business opportunities within the European Union. This committee will also recommend actions to mitigate any material risks that appear likely to crystallise as the Brexit negotiations progress. At present there remains significant uncertainty as to the final outcome of the Brexit negotiations and this uncertainty is currently expected to continue.

Approved by the Board of Directors on 9 July 2019 and signed by its order by:

K D Munday
Company Secretary

Stonehage Fleming (Overseas) Limited
Registered Number 04027726

DIRECTORS' REPORT FOR THE YEAR ENDED 31 MARCH 2019

The Directors present their report and the audited financial statements of the Company for the year ended 31 March 2019.

INCORPORATION

The Company was incorporated in England and Wales on 5 July, 2000 as a private company limited by shares and is domiciled in the United Kingdom.

PRINCIPAL ACTIVITIES

The Company is an intermediate holding company having an investment in an offshore Group company. The Company intends to continue to operate with this principal activity during the next financial year.

PILLAR III

In accordance with the rules of the FCA, the Company's immediate parent company and controlling party, Stonehage Fleming (UK) Limited ("the Parent") has published information on its risk management objectives and policies and on its regulatory capital requirements and resources. This information is available on the Parent's website (www.stonehagefleming.com) or on application to the Company Secretary at the Company's registered address.

RESULTS AND DIVIDENDS

In the year under review, the Company recorded a profit before taxation of £51,000 (2018: £111,000). At 31 March 2019, the Company had net assets of £75,000 (2018: £204,000).

An interim dividend of £180,000 was declared and paid during the year (2018: £115,000).

DIRECTORS

The Directors of the Company who were in office during the year and up to the date of signing the financial statements are listed on page 1.

EMPLOYEES

The Company has no employees (2018: none).

GOING CONCERN

The Directors believe that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements.

Further details regarding the adoption of the going concern basis can be found in the statement of accounting policies in the financial statements.

STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE FINANCIAL STATEMENTS

The directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union. Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable IFRSs as adopted by the European Union have been followed, subject to any material departures disclosed and explained in the financial statements;
- make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

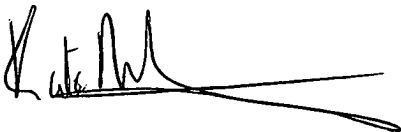

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

DIRECTORS' CONFIRMATIONS

In the case of each director in office at the date the Directors' Report is approved:

- so far as the director is aware, there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as a director in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

Approved by the Board of Directors and signed by its order by:

K D Munday
Company Secretary

Independent auditors' report to the members of Stonehage Fleming (Overseas) Limited

Report on the audit of the financial statements

Opinion

In our opinion, Stonehage Fleming (Overseas) Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2019 and of its profit and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards (IFRSs) as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual Report & Financial Statements (the "Annual Report"), which comprise: the Statement of Financial Position as at 31 March 2019; the Statement of Comprehensive Income, the Cash Flow Statement, and the Statement of Changes in Equity for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

ISAs (UK) require us to report to you when:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that may cast significant doubt about the company's ability to continue to adopt the going concern basis of accounting for a period of at least twelve months from the date when the financial statements are authorised for issue.

We have nothing to report in respect of the above matters.

However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern. For example, the terms on which the United Kingdom may withdraw from the European Union are not clear, and it is difficult to evaluate all of the potential implications on the company's trade, customers, suppliers and the wider economy.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic Report and Directors' Report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (UK) require us also to report certain opinions and matters as described below.

Strategic Report and Directors' Report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic Report and Directors' Report for the year ended 31 March 2019 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic Report and Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities in Respect of the Financial Statements set out on page 5, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

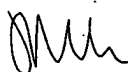

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not received all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2019

I. Principal accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these financial statements. These policies have been consistently applied to all the years presented, unless otherwise stated.

a) Basis of preparation

• Compliance with IFRS

The financial statements of the Company have been prepared in accordance with International Financial Reporting Standards (IFRS) as adopted by the European Union and the Companies Act 2006. The interpretations issued by the IFRS Interpretations Committee (IFRS IC) applicable to companies reporting under IFRS.

• Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following items:

- certain financial assets and liabilities (including derivative instruments) measured at fair value
- assets held for sale – measured at fair value less cost of disposal

• New standards adopted by the Company

The Company has applied the following standards for the first time for the annual reporting period commencing 1 April 2018:

- IFRS 9 Financial Instruments
- IFRS 15 Revenue from Contracts with Customers

• Impact on the financial statements

IFRS 9 Financial Instruments

The standard was published in July 2014 and replaced guidance in IAS 39 'Financial Instruments': Recognition and Measurement. IFRS 9 includes revised guidance on classification and measurement of financial instruments, including an expected credit loss model for calculating impairment on financial assets.

IFRS 9 contains three principal classification categories for financial assets: measured at amortised cost, fair value through other comprehensive income (FVOCI) and fair value through profit and loss (FVTPL). The classification of financial assets under IFRS 9 is generally based on the business model in which a financial asset is managed and its contractual cash flow characteristics. IFRS 9 eliminates the previous IAS 39 asset categories of held to maturity, loans and receivables and available for sale. Under IFRS 9, derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never separated. Instead, the hybrid financial instrument as a whole is assessed for classification.

IFRS 9 largely retains the existing requirements in IAS 39 for the classification and measurement of financial liabilities. The adoption of IFRS 9 has not had a significant effect on the Company's accounting policies related to financial assets and liabilities and has had no impact on the Statement of Comprehensive Income.

The following table and notes explain the original measurement categories under IAS 39 and the new measurement categories under IFRS 9 for each class of the Company's financial assets and financial liabilities as at 1 April 2018.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2019 (CONTINUED)

I. Principal accounting policies (continued)

a) Basis of preparation (continued)

Financial Assets balance at 1 April 2018	Note	Original classification under IAS 39	New classification under IFRS 9	Original carrying amount under IAS 39 £'000	New carrying amount under IFRS 9 £'000
Non-current investments held at fair value	10	Fair value	Fair value	10	10
Non-current trade and other receivables	11	Loans and receivables	Financial assets at amortised cost	200	200
Cash and cash equivalents		Loans and receivables	Financial assets at amortised cost	6	6
Short term trade payables	12	Other financial liabilities	Financial assets at amortised cost	12	12

The Company implemented IFRS 9 on 1 April 2018. IFRS 9 did not have a material impact on the financial statements for:

- Classification and measurement or
- Loss allowances

The Company recognises a loss allowance when a debtor has not made contractual payments for a period of greater than 365 days past due. The Company considers this methodology to be materially consistent with a loss allowance calculated using the simplified expected loss model under IFRS 9 which uses a lifetime expected loss allowance. The Company considers that forward looking information such as macroeconomic factors will have an immaterial impact on the expected credit losses of the Company.

No restatement of the prior year financial statements has been necessary as a result of the application of IFRS 9. Credit impairment losses are now presented on the face of the Statement of Comprehensive Income. The credit impairment losses for the year ended 31 March 2018 was nil.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 'Revenue from Contracts with Customers', published in May 2014, established a framework for determining whether, how much and when revenue is recognised. It replaced guidance, including IAS 18 'Revenue' and IAS 11 Construction Contracts and was implemented by the Company with effect from 1 April 2018. The Company is aware that the impact on annual reporting is not material and mainly related to fixed fee services provided to customers.

The Company has applied the modified retrospective approach for this standard. The adoption of this standard has not required a cumulative adjustment to retained earnings as of 1 April 2018 and the comparative figures have not been restated.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2019 (CONTINUED)

I. Principal accounting policies (continued)

b) Going concern

The Company's business activities, together with the factors likely to affect its future development, performance and position are set out in the Strategic Report and the Annual Report & Financial Statements of Stonehage Fleming (UK) Limited.

The Company meets its day- to- day working capital requirements through its cash resources.

The Company's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Company should be able to operate within the level of its current cash.

The Directors believe that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the Directors' Report and financial statements.

c) Dividends receivable from foreign sources

The Company reflects dividends received from foreign subsidiaries gross of withholding tax.

d) Foreign currencies

Transactions in foreign currencies are recorded at the rate of exchange at the date of the transaction or, if hedged, at the forward contract rate. Monetary assets and liabilities denominated in foreign currencies at the statement of financial position date are reported at the rates of exchange prevailing at that date or, if appropriate, at the forward contract rate.

e) Investments

Investments in subsidiaries are carried at cost less a provision for impairment where the carrying amount of the investment exceeds the carrying amount of the investee's net assets.

f) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost, using the effective interest method, less any provision for impairment. Trade and other receivables with maturities greater than twelve months after the balance sheet date are classified as non-current assets.

g) Trade and other payables

These amounts represent obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers, prior to the end of the financial year which are unpaid. Trade and other payables are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities. They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

h) Cash and cash equivalents

In the Cash Flow Statement, cash and cash equivalents include cash in hand, deposits held at call with financial institutions and other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2019 (CONTINUED)

I. Principal accounting policies (continued)

i) Other financial assets

From 1 April 2018, the Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value through profit or loss (FVPL), and
- those to be measured at amortised cost.

Investments in equity instruments are measured at fair value and all movements in fair value are recognised through the profit and loss.

The Company classifies its financial assets at amortised cost only if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cash flows,
- and the contractual terms give rise to cash flows that are solely payments of principal and interest.

The amortised cost of a financial asset or financial liability is defined as the amount at which the financial asset or financial liability is measured at initial recognition minus the principal repayments, plus or minus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount and, for financial assets, adjusted for any loss allowance.

If a financial asset is held with the objective of both holding to collect contractual cash flows and selling the asset and the terms of the asset gives rise to cash flows that are solely payments of principal and interest the asset will be measured at fair value through other comprehensive income. The Company does not hold any assets within this category.

Assets which do not meet either of these business models are held at fair value through the profit and loss.

Regular purchases and sales of financial assets are recognised on trade date, the date on which the Company commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Company has transferred substantially all the risks and rewards of ownership.

j) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

k) Critical accounting estimates and judgements

The preparation of financial statements requires the use of accounting estimates which, by definition, will seldom equal the actual results. Management also need to exercise judgement in applying the Company's accounting policies. This note provides an overview of the areas that involved a higher degree of judgement or complexity, and of items which are more likely to be materially adjusted due to estimates and assumptions turning out to be wrong. There have been no actual adjustments this year as a result of an error or change in previous estimates.

The estimates and assumptions that could have a significant effect upon the Company's financial results relate to the review of the investment in subsidiary for impairment as set out in Note 10. The Directors set appropriate assumptions in forming these judgements and exercise appropriate caution when doing so.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2019 (CONTINUED)

1. Principal accounting policies (continued)

i) New standards, amendments and interpretations effective after 31 March 2019

Certain new accounting standards and interpretations have been published that are not mandatory for 31 March 2019 reporting periods and have not been early adopted by the Company. The Company's assessment of the impact of these new standards and interpretations is set out below.

IFRS 16 "Leases" is effective for annual periods beginning on or after 1 January 2019. The Company does not hold any operating leases and therefore the adoption of this standard will not impact the Company's Statement of Financial Position or Statement of Comprehensive Income.

2. Consolidated financial statements

The Company is a wholly owned subsidiary of Stonehage Fleming (UK) Limited and is included in the consolidated financial statements of Stonehage Fleming (UK) Limited which are publically available. Consequently, the Company has taken advantage of the exemption from preparing consolidated financial statements under the terms of section 400 of the Companies Act 2006.

3. Turnover

The Company is an intermediate holding company having an investment in an offshore Group company. The Company does not trade on its own account.

4. Operating loss

The cost of auditing the Company's financial statements for the year ended 31 March 2019 amounted to £6,588 (2018: £6,427).

5. Directors' emoluments

No Directors' fees for services of Directors of the Company were paid by this Company (2018: none). The emoluments of directors are paid by Stonehage Fleming Services Limited which makes no recharge to the company. It is not possible to make an accurate apportionment of their emoluments in respect of each of the subsidiaries.

6. Employees

The Company has no employees (2018: none).

7. Income from shares in group undertakings

	2019 £'000	2018 £'000
Stonehage Fleming Investment Management (Guernsey) Limited	78	117
	78	117

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2019 (CONTINUED)

8. Tax on profit on ordinary activities

	2019 £'000	2018 £'000
Current tax:		
UK Corporation tax on profits of the year	-	-
Tax on profit on ordinary activities	-	-

The tax assessed for the year is same as the standard rate of Corporation tax in the UK 19% (2018: 19%).

Factors affecting current and future tax charge	2019 £'000	2018 £'000
Profit on ordinary activities before taxation	51	111
Profit on ordinary activities before taxation multiplied by the standard rate of Corporation tax in the UK of 19% (2018: 19%)	10	21
Effects of:		
Non-taxable expense: Intercompany waiver of liability	4	-
Surrender of group relief	1	1
Dividends not subject to tax	(15)	(22)
Total tax charge for the year	-	-

9. Dividends

	2019 £'000	2018 £'000
Paid in respect of 2019 £18.00 per £1 share (2018: £11.50 per £1 share)	180	115

An interim dividend of £180,000 (2018: £115,000) was declared and paid in the year.

10. Investments in group undertakings

Shares in group undertakings	£'000	£'000
At 1 April 2018/2017	10	10
Disposals	-	-
At 31 March 2019/2018	10	10

Investments in group undertakings are shown at cost less provision for any impairment. The Company assesses, at each reporting date, whether there is objective evidence that a financial asset or group of financial assets is impaired.

The Directors believe that the carrying value of the investments is supported by their underlying net assets.

Principal subsidiaries

The companies listed below include all those which in the opinion of the Directors, principally affect the result or assets of the Company.

All the companies are wholly owned subsidiary undertakings of the Company.

Accruals and deferred income	7	6
	19	12

Amounts owed to group undertakings, being inter-company loans, are unsecured, interest free and have no fixed dates of repayment.

13. Financial risk management

The Company's principal financial liabilities comprise trade and other payables. The Company's principal financial assets include trade and other receivables and cash that derive directly from its operations.

Market risk

Market risk is the risk that the fair value of future cash flows will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, foreign currency risk and other price risk. Management does not consider this risk to be a material risk for the business.

Interest rate risk

The Company's cash balances are exposed to interest rate risk arising from changes in interest rates. The Company does not hold significant cash balances. In the event that the Company has any excess cash balances, these would be lent to fellow subsidiaries. Management do not currently operate any hedging policies in respect of this risk. In Management's opinion there are no other significant interest-bearing assets or liabilities.

13. Financial risk management (continued)

Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of an exposure will fluctuate because of changes in foreign exchange rates. The Company does not have any significant exposure to foreign currencies. The Company reviews its foreign exchange exposures and ensures that these are managed as appropriate.

Management does not consider this risk to be a material risk for the business.

Price risk

The majority of the Company's income arises from profit shares from other Group companies. Such income is not affected by market movements.

Credit risk

Credit risk is the risk that a counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade and other receivables) and deposits with banks. The Company monitors its credit exposures and ensures that these are managed as appropriate.

Cash balances within the Company are held with banks with a minimum credit rating of 'A'.

Impairment of financial assets

The Company has two types of financial assets that are subject to a provision for credit losses:

- Trade receivables for sales
- Accrued income

Trade receivables and work in progress are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Company, and a failure to make contractual payments for a period of greater than 365 days past due. The Company considers this methodology to be materially consistent with a loss allowance calculated using the simplified expected loss model under IFRS 9 which uses a lifetime expected loss allowance.

The Company considers that forward looking information such as macroeconomic factors will have an immaterial impact on the expected credit losses of the Company. Impairment losses on trade receivables and contract assets are presented as net impairment losses within profit on ordinary activities before taxation. Subsequent recoveries of amounts previously written off are credited against the same line item.

Individual receivables which are known to be uncollectable are written off by reducing the carrying amount directly. The other receivables are assessed collectively to determine whether there is objective evidence that an impairment has been incurred but has not yet been identified. Management considers that there is evidence of impairment if any of the following indicators are present:

- Significant financial difficulties of the debtor
- Default or delays in payment

Liquidity risk

Liquidity risk includes the risk that, as a result of liquidity requirements in the future, the Company will be forced to sell financial assets at a potentially unfavourable value or may be unable to exit these positions at all, or the Company will have insufficient funds to settle a transaction on the due date. The liabilities of the Company are to

few subsidiaries and are payable on request. These are matched by corresponding debtors. Management believe liquidity risk is mitigated through proper cash flow management and the existence of sufficient liquid reserves.

14. Called up share capital

	2019 £'000	2018 £'000
Authorised		
50,000 (2018: 50,000) ordinary shares of £1 each	50	50
Allotted and fully paid		
Ordinary shares of £1 each		
At 31 March 2019 – 10,002 (2018: 10,002)	10	10

15. Capital Structure

The Company's objectives when managing capital remain unchanged and are to:

- safeguard its ability to continue as a going concern, so that it can continue to provide returns for shareholders and benefits for other stakeholders;
- maintain an optimal capital structure and;
- ensure compliance with applicable capital requirements and regulations.

In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce liabilities.

The Company considers its capital to be its total equity as shown on the Statement of Financial Position.

16. Contingencies

The Company can from time to time be party to legal and other claims in the ordinary course of its business. The Directors assess all claims carefully and make provision and/or disclosure as appropriate. In the Directors' opinion no provisions or disclosures are necessary in these financial statements (2018: none).
