### **REPORT OF THE DIRECTORS for the year ended 31 March 2006**

The directors present their Annual Report and audited Accounts for the year ended 31 March 2006.

#### **Business review and principal activities**

The company is a wholly owned subsidiary of The British Land Company PLC and operates as a constituent of the Group. The company's principal activity is property investment in the United Kingdom. There have not been any significant changes in the current year, nor are any currently planned.

As shown in the company's Profit and loss account on page 5, the company's turnover has increased by 12.5% over the prior year and loss before tax was £1,391,247 while the prior year was £Nil. The pre tax loss in the current year is due to the exceptional charge incurred whilst repaying the subordinated loans from BLSSP (Funding) PLC.

The Balance sheet on page 7 of the financial statements shows that the company's financial position at the year end is, in both net assets and cash terms, consistent with the prior year. Details of amounts owed to its fellow group companies are shown in note 11 on page 15.

The company's directors believe that further key performance indicators for the company are not necessary or appropriate for an understanding of the development, performance or position of the business. The performance of the Group comprising The British Land Company PLC and subsidiaries, which includes the company, is discussed in the group's Annual Report which does not form part of this report.

Details of significant events since the balance sheet date are contained in note 18 of the financial statements.

#### **Principal risks and uncertainties**

The Group's objective is to achieve attractive long-term returns whilst minimising risks. In order to identify and evaluate risks and design controls to mitigate them, a regular comprehensive assessment is undertaken which has identified certain individual risks affecting the Group and company, most of which arise out of natural market volatility, relating to supply and demand imbalances in the following areas:

- demand for space from occupiers against available space (including new developments);
- differential pricing for previous locations and buildings;
- alternative uses for buildings (including redevelopment);
- demand for returns from investors in property, compared to other asset classes;
- price differentials for capital to finance the business;
- legislative initiatives, including planning consents and taxation;
- economic cycles, including the impact on tenant covenant quality, interest rates and inflation;
- mis-pricing of property assets by the equity markets.

The Group's preference for long-term investments let on long leases to strong tenants with upward only rent reviews provides stable long-term cash flows which enables the Group to ride out much of this natural market volatility.

The company is financed by subordinated loans from BL Superstores (Funding) Limited and BLSSP Property Holdings Limited. The average interest rate charged on the BL Superstores (Funding) Limited loans was 4.96% per annum. The interest charged on the loan from BLSSP Property Holdings Limited is equivalent to the residual taxable profits of the company, capped at an effective interest rate of 24% per annum. No interest is charged if the company makes no taxable profits. The company has no third party debt.

#### **Environment**

Across the Group, The British Land Company PLC recognises the importance of its environmental responsibilities, monitors its impact on the environment, and designs and implements policies to reduce any damage that might be caused by the Group's activities. The company operates in accordance with Group policies, which are described in the Group's Annual Report, which does not form part of this report. Initiatives designed to minimise the company's impact on the environment include safe disposal of manufacturing waste, recycling and reducing energy consumption.

#### **Results and dividends**

The results for the year are set out in the profit and loss account on page 5.

Dividends paid are shown on the face of the Profit and loss account.

**Statement of directors' responsibilities**

United Kingdom company law requires the directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing those financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable accounting standards have been followed; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 1985. They are also responsible for the system of internal control and for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

In the case of each of the persons who are directors at the time when the director's report is approved, the following apply:

- so far as each director is aware, there is no relevant audit information of which the company's auditors are unaware, and
- He/she has taken all steps that he/she ought to have taken as a director in order to make him/herself aware of any relevant audit information and to establish that the company's auditors are aware of that information.

**Basis of audit opinion**

We conducted our audit in accordance with International Standards on Auditing (UK and Ireland) issued by the Auditing Practices Board. An audit includes examination, on a test basis, of evidence relevant to the amounts and disclosures in the financial statements. ### **Notes to the accounts** **for the year ended 31 March 2006**

#### **1. Accounting policies**

The principal accounting policies are summarised below. They have been applied consistently throughout the current and the previous year.

These financial statements are designed to cover a wide variety of companies and circumstances. As a result some notes may not be relevant for this company and so may be intentionally left blank.

#### **Accounting basis**

The financial statements are prepared in accordance with applicable United Kingdom law and Accounting Standards and under the historical cost convention as modified by the revaluation of investment properties and fixed asset investments.

#### **Cash flow statement**

The company is exempt from preparing a cash flow statement in accordance with FRS 1. The company's cash flow is included in the group cash flow statement prepared by The British Land Company PLC as part of its consolidated financial statements, which are publicly available (see note 19).

#### **Properties**

*Investment properties*, including freehold and long leasehold properties, are independently valued each year on an open market basis. Any surplus or deficit arising is transferred to revaluation reserve, unless a deficit is expected to be permanent, in which case it is charged to the profit and loss account. The profit on disposal is based on book value.

In accordance with Statement of Standard Accounting Practice 19 no amortisation or depreciation is provided in respect of freehold or long leasehold properties. The directors consider that this accounting policy, which represents a departure from the statutory accounting rules, is necessary to provide a true and fair view. The financial effect of the departure from these rules cannot reasonably be quantified as depreciation or amortisation is only one of the many factors reflected in the annual valuation and the amount which might otherwise have been shown cannot be separately identified or quantified. Where properties held for investment are appropriated to trading stock, they are transferred at market value.

#### **Investments**

Fixed asset investments are stated at market value when listed and at directors' valuation when unlisted. Any surplus or deficit arising on revaluation is taken to revaluation reserve, unless a deficit is expected to be permanent, in which case it is charged to profit and loss account.

Investments in subsidiaries are stated at cost or directors' valuation less provision for impairment.

#### **Events after the balance sheet date**

FRS 21 (IAS 10) "Events after the balance sheet date" is applicable for accounting periods beginning on or after 1 January 2005. The main impact of FRS 21 is that dividends declared to holders of equity instruments after the balance sheet date, are not recognised as a liability at the balance sheet date. As this constitutes a change in accounting policy, the comparative amounts in the financial statements are required to be restated in accordance with FRS 3 "Reporting Financial Performance". There has been no impact on the financial statements of the company for the current or previous period.

## **BLSSP (PHC26) LIMITED**

### **Notes to the accounts for the year ended 31 March 2006**

#### **1. Accounting policies (continued)**

##### **Taxation**

Corporation tax payable is provided on taxable profits at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantially enacted by the balance sheet date.

On disposal of an investment property the element of tax relating to the profit in the year is charged to the profit and loss account and the element relating to earlier revaluation surpluses is included in the statement of total recognised gains and losses.

Deferred tax assets and liabilities arise from timing differences between the recognition of gains and losses in the accounts and their recognition in a tax computation.

Deferred tax is provided in respect of all timing differences that have originated, but not reversed, at the balance sheet date that may give rise to an obligation to pay more or less tax in the future. *Deferred tax is not recognised when fixed assets are revalued unless by the balance sheet date there is a binding agreement to sell the revalued assets and the gain or loss expected to arise on sale has been recognised in the financial statements.*

Deferred tax is measured on a non-discounted basis. A deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

##### **Net rental income**

Rental income is recognised on an accruals basis, exclusive of service charges receivable. Rent increases arising from rent reviews are taken into account when such reviews have been settled with tenants. Where a lease incentive does not enhance the property, it is amortised on a straight-line basis over the period from the date of lease commencement to the earlier of the first rent review to the prevailing market rent, the first break option, or the end of the lease term. On new leases with rent free periods, rental income is allocated evenly over the period from the date of lease commencement to the earlier of the first rent review to the prevailing market rate and the lease end date. Service charges and other recoveries are credited directly against relevant expenditure.

##### **Debt instruments**

Debt instruments are stated at their net proceeds on issue. Issue costs are amortised to the profit and loss account over the life of the instrument and are included in interest payable.

The subordinated loan from BLSSP Property Holdings Limited, which is subject to a variable rate of interest, is deeply subordinated and ranks behind subordinated loans from BL Superstores (Funding) Limited. The interest charged on the loan from BLSSP Property Holdings Limited is equivalent to the residual taxable profits of the company, capped at an effective interest rate of 24% per annum. No interest is charged if the company does not make taxable profits. The subordinated loans from BL Superstores (Funding) Limited are being repaid from October 2006 to October 2025, with the average interest rate of these subordinated loans being 4.96% per annum.

### Exceptional item

On the same day the company borrowed, net of issue costs, £10,979,981 from BL Superstores (Funding) Ltd as part of the securitisation of the Sainsbury properties. The exceptional item of £1,555,576 related mainly to the difference between the redemption value and the carrying value of the redeemed debt.
