Notes to the Abbreviated Accounts for the period ended 31 March 2016

1 Accounting Policies

Basis of measurement and preparation of accounts

The financial statements have been prepared under the historical cost accounting rules and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

Turnover policy

Turnover represents the amount derived from the provision of goods and services falling within the company's activities after deduction of trade discounts and VAT.

Tangible assets depreciation policy

Depreciation of fixed assets is calculated to write off their cost or valuation less any residual value over their estimated useful lives as follows:

Office equipment 3 years

Motor vehicles 25% on reducing balance

Plant and equipment 4 years

Other accounting policies

Tangible fixed assets acquired under hire purchase contracts are capitalised at the date of commencement of the contract. The total finance charges are written off to profit and loss account on a straight-line basis.

Rentals paid under operating leases are charged to profit and loss account on a straight-line basis over the period of the lease.

Deferred taxation is provided in respect of all timing differences that have originated but not reversed by the balance sheet date. Timing differences for deferred taxation calculations arise when taxable profits are different to those shown in the financial statements due to the inclusion of gains and losses in the tax assessments in different periods to those in which they are recognised in the financial statements.
