The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules

The financial statements have been prepared on the going concern basis, and the directors believe that the company will continue in operational existence for the foreseeable future. In forming this view the directors rely on the continuing support of the parent company, Royal Opera House Covent Garden Limited, which has been confirmed in writing

Under FRS 1 the company is exempt from the requirement to prepare a cash flow statement on the grounds that its parent undertaking includes the company in its own published consolidated financial statements

As the company is a wholly owned subsidiary of Royal Opera House Covent Garden Limited, the company has taken advantage of the exemption contained in FRS 8 and has therefore not disclosed transactions or balances with entities that form part of the group. The consolidated financial statements of Royal Opera House Covent Garden Limited, within which this company is included, can be obtained from the address given in note 16.

Turnover

Sale of goods revenue is recognised when the significant risks and rewards of ownership of the goods have passed to the buyer and can be reliably measured. Revenue is measured at fair value after making provision in respect of future returns of goods and services supplied by the company prior to the balance sheet date.

Royalty income is included on a receivable basis calculated on sales of DVDs arising each accounting period as reported by licensees. Where licensees' sales reports are not available, royalty advances are either recognised as income in the period they are received if all obligations under the royalty agreement have been fulfilled, or deferred to the extent these obligation have not been fulfilled at period end

Royalties payable are expensed on an accruals basis. Royalty advances are capitalised only to the extent it is estimated that sufficient future royalties will be earned for recoupment of those advances.

The turnover and profit before tax is attributable to the principal activity of the company and arose in the United Kingdom

Foreign currencies

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction (or, if hedged forward, at the rate of exchange under the related forward currency contract) Monetary assets and liabilities denominated in foreign currencies are translated using the contracted rate or the rate of exchange ruling at the balance sheet date and the gains or losses on translation are included in the profit and loss account

Taxation

Any charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes

1 Accounting policies (continued)

Taxation (continued)

Deferred tax is recognised in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws that have been enacted or substantially enacted by the balance sheet date. Deferred tax is measured on a non-discounting basis

Investment in programming

Investment in programming is capitalised and amortised over its expected useful life, which is up to eight years depending on format and the terms of licenses acquired. These assets are reviewed for impairment where events or changes in circumstances indicate that the carrying amount may not be recoverable. Any anticipated losses on individual projects are charged in the profit and loss account in the period where the event or change in circumstance occurred.
