STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2015

Principal activities and business review

The principal activity of the company during the year was, and will continue to be, that of a holding company. The investments of the company are shown in note 8.

The company is a wholly owned subsidiary undertaking of Virgin Media Inc (Virgin Media) which is itself a wholly owned subsidiary of Liberty Global plc (Liberty Global).

The Virgin Media Inc consolidated group (the group) operates under the Virgin Media brand in the United Kingdom (UK) and Republic of Ireland (Ireland), following the acquisition of a controlling interest in Virgin Media Ireland Limited from a fellow subsidiary of Liberty Global in February 2015.

The group provides digital cable, broadband internet, fixed-line telephony and mobile services in the UK and Ireland to both residential and business-to-business (B2B) customers. The group is one of the largest providers of residential digital cable, broadband internet and fixed-line telephony services in terms of the number of customers in the UK and Ireland. The group believes its advanced, deep-fibre cable access network enables it to offer faster and higher quality broadband services than its digital subscriber line, or DSL, competitors. As a result, it provides its customers with a leading, next-generation broadband service and one of the most advanced interactive TV services available in the UK and Irish markets.

The group provides mobile services to its customers using third-party networks through mobile virtual network operator (MVNO) arrangements.

In addition, through the Virgin Media Business brand, the group offers a broad portfolio of B2B voice, data, internet, broadband and managed services solutions to small businesses, medium and large enterprises and public sector organisations in the UK.

At 31 December 2015, the group provided services to approximately 5.6 million residential cable customers on its network. The group is also one of the largest MVNOs by number of customers, providing mobile telephony services to 2.3 million contract mobile customers and 0.7 million prepay mobile customers over third party networks. At 31 December 2015, 83% of residential customers on the group's cable network received multiple services and 63% were "triple-play" customers, receiving broadband internet, digital cable and fixed-line telephony services from the group.

Liberty Global is the largest international cable company. As at 31 December 2015, it had operations in 14 countries and its market-leading triple-play services are provided through next-generation networks and innovative technology platforms that connected 27 million customers subscribing to 56 million television, broadband internet and telephony services. In addition at 31 December 2015, Liberty Global served 5 million mobile subscribers and offered WiFi service across six million access points.

The directors do not use key performance indicators (KPIs) to assess the performance of the company as its principal activity is that of a holding company.

During the year, the company received dividends from its subsidiaries of £100,307,000 (2014 - £nil).

Future outlook

The directors will continue to review management policies in light of changing trading and market conditions. Further detail of the future outlook of the group is provided in Virgin Media Inc's financial statements and annual report for 2015, which are available from the company secretary at Virgin Media, Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

On 23 June 2016, the UK voted to leave the European Union, the implications of which are uncertain as of the date of signing these financial statements. Based on information currently available, we do not expect that this matter will have a material impact on our business. Accordingly, no adjustments have been made to these financial statements.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2015

1 Company information

Flextech Broadcasting Limited (the "company") is a company incorporated and domiciled in the United Kingdom. The registered office of the company during the year was Bartley Wood Business Park, Hook, Hampshire, RG27 9UP.

2 Accounting policies

A summary of the principal accounting policies is set out below. All accounting policies have been applied consistently, unless noted below.

2.1 Basis of accounting and transition from UK GAAP

These financial statements were prepared under the historical cost convention in accordance with the Companies Act 2006 and the Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

In preparing these financial statements, the company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs"), but makes amendments where necessary in order to comply with the Companies Act 2006, and has set out below where advantage of the FRS 101 disclosure exemptions have been taken.

In the transition to FRS 101, the company has applied IFRS 1 whilst ensuring that its assets and liabilities are measured in compliance with FRS 101. An explanation of how the transition to FRS 101 has affected the reported financial position, financial performance and cash flows of the company is provided in note 15.

The company's ultimate parent undertaking, Liberty Global plc, includes the company in its consolidated financial statements. The consolidated financial statements of Liberty Global plc are available to the public and may be obtained from Liberty Global's website at www.libertyglobal.com.

In these financial statements, the company has applied the exemptions available under FRS 101 in respect of the following disclosures, where required equivalent disclosures are included within the consolidated financial statements of Liberty Global plc:

- a cash flow statement and related notes,
- comparative period reconciliations for share capital,
- disclosures in respect of related party transactions with fellow group undertakings,
- disclosures in respect of capital management,
- the effects of new but not yet effective IFRSs,
- an additional balance sheet for the beginning of the earliest comparative period following the retrospective change in accounting policy,
- disclosures in respect of the compensation of Key Management Personnel, and
- certain disclosures required by IFRS 13 Fair Value Measurement and the disclosures required by IFRS 7 Financial Instrument Disclosures.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements and in preparing an opening FRS 101 balance sheet at 1 January 2014 for the purposes of the transition to FRS 101.

The company proposes to continue to adopt the reduced disclosure framework of FRS 101 in its next financial statements.

2.2 Changes in accounting policies

This is the first year in which the financial statements have been prepared in accordance with FRS 101. The date of transition to FRS 101 is 1 January 2014. An explanation of the transition is included in note 15 to the financial statements. In applying FRS 101 for the first time the company has applied early the amendment to FRS 101 which permits a first time adopter not to present an opening balance sheet at the beginning of the earliest comparative period presented.

2.3 Group accounts

The company is exempt by virtue of section 400 of the Companies Act 2006 from the requirement to prepare group financial statements. These financial statements present information about the company as an individual undertaking and not about its group.

FLEXTECH BROADCASTING LIMITED

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2015

2. Accounting policies (continued)

2.4 Investments

Investments are recorded at cost, less provision for impairment as appropriate. The company assesses at each reporting date whether there is an indication that an investment may be impaired. If any such indication exists, the company makes an estimate of the investment's recoverable amount. Where the carrying amount of an investment exceeds its recoverable amount, the investment is considered impaired and is written down to its recoverable amount. A previously recognised impairment loss is reversed only if there was an event not foreseen in the original impairment calculations, such as a change in use of the investment or a change in economic conditions. The reversal of impairment loss would be to the extent of the lower of the recoverable amount and the carrying amount that would have been determined had no impairment loss been recognised for the investment in prior years.

2.5 Trade and other debtors

Trade and other debtors are stated at their recoverable amount. Provision is made when the amount receivable is not considered recoverable and the amount is fully written off when the probability for recovery of a balance is assessed as being remote.

2.6 Interest bearing loans and borrowings

All loans and borrowings are initially recognised at fair value less directly attributable transaction costs.

After initial recognition, interest bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method.

Gains and losses arising on the repurchase, settlement or otherwise cancellation of liabilities are recognised respectively in finance income and finance costs.

Finance costs which are incurred in connection with the issuance of debt are deferred and set off against the borrowings to which they relate. Deferred finance costs are amortised over the term of the related debt using the effective interest method.

3. Judgements in applying accounting policies and key sources of estimation uncertainty

In the process of applying the company's accounting policies, management has not made any critical judgements that have a significant effect on the amounts recognised in the financial statements, except for

Carrying value of investments

Investments are held at cost less any necessary provision for impairment. Where the impairment assessment did not provide any indication of impairment, no provision is required. If any such indications exist, the carrying value of an investment is written down to its recoverable amount.

4. Directors' remuneration

The directors received no remuneration for qualifying services as directors of this company. All directors' remuneration is paid by and disclosed in the financial statements of Virgin Media Limited.

5. Staff costs

The company does not have any directly employed staff and is not charged an allocation of staff costs by the group.

Factors affecting current and future tax charges

A reduction in the UK corporation tax rate from 21% to 20% (effective from 1 April 2015) was substantively enacted on 2 July 2013. Further reductions to 19% (effective from 1 April 2017) and to 18% (effective from 1 April 2020) were substantively enacted on 8 July 2015. This will reduce the company's future current tax charge accordingly. A further reduction to 17% (effective from 1 April 2020) was announced in Budget 2016. This represents an additional 1% reduction on top of the previously announced rate reductions. The future rate reduction to 17% is expected to be included in Finance Bill 2016, which was not substantively enacted at the balance sheet date, therefore this has not been reflected in these financial statements.
