Strategic report

Business review and principal activities

The company is a wholly owned subsidiary of Severn Trent Plc.

The principal activity of the company is to hold the group's investment in Cognica Limited.

There have not been any significant changes in the company's principal activities in the year under review. The directors are not aware, at the date of this report, of any likely major changes in the company's activities in the next year.

The company does not trade and the company's directors do not believe that further key performance indicators for the company are necessary to enhance the understanding of the development, performance or position of the business.

Principal risks and uncertainties

Treasury management

The Severn Trent group manages its treasury operations on a group basis. Financial risk management is performed by Severn Trent's Group Treasury department. This includes assessment and mitigation of price risk, credit risk, liquidity risk and interest rate cash flow risk. The group's treasury management policies and operations are discussed in Severn Trent Plc's Annual Report and Financial Statements (which does not form part of this report).

Going concern and financial position

The directors have considered the financial position and future prospects of the company. The company participates in the group's pooled banking arrangements and receives funding from the Severn Trent group in the form of intra-group loans. When existing loans reach maturity the appropriate funding will be established as required to ensure such obligations can be met. After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the report and annual financial statements.

Notes to the financial statements

1. Accounting policies

a) Accounting convention

The financial statements have been prepared on the going concern basis (see Strategic report) under the historical cost convention as modified by the revaluation of certain financial assets and liabilities (including derivative instruments) at fair value, and in accordance with applicable United Kingdom Accounting Standards and comply with the requirements of the United Kingdom Companies Act 2006 ('the Act'). The principal accounting policies, which have been applied consistently in the current and preceding year are set out below.

b) Basis of preparation

The company is a wholly owned subsidiary of Severn Trent Plc and is included in the consolidated financial statements of Severn Trent Plc.

The company has elected to adopt early the new accounting framework issued by the Financial Reporting Council. The company meets the definition of a qualifying entity under FRS 100 'Application of Financial Reporting Requirements'. Accordingly, in the year ended 31 March 2013, the company adopted FRS 101 'Reduced Disclosure Framework' and ceased to apply all UK Accounting Standards issued prior to FRS 100. Therefore the recognition and measurement requirements of EU-adopted IFRS have been applied, with amendments where necessary in order to comply with the Companies Act 2006 and The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 (SI 2008/410) as these are Companies Act 2006 financial statements.

As permitted by FRS 101, the company has taken advantage of the disclosure exemptions available under that standard in relation to share based payments, financial instruments, capital management, presentation of comparative information in respect of certain assets, presentation of a cash flow statement, standards not yet effective, impairment of assets and related party transactions.

Where required, equivalent disclosures are given in the group financial statements of Severn Trent Plc. The group financial statements of Severn Trent Plc are available to the public and can be obtained as set out in note 14.

c) Interest receivable and similar income

Interest income is accrued on a time basis by reference to the principal outstanding and at the effective interest rate applicable. Dividend income from investments is recognised when the group's rights to receive payment have been established. Interest and dividend income are included in interest receivable and similar income.

d) Taxation

Current tax payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income and expenses that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred taxation is provided in full, using the liability method, on taxable temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements. A deferred tax asset is only recognised to the extent it is probable that sufficient taxable profits will be available in the future to utilise it. Deferred taxation is measured on a non-discounted basis using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred tax liability is settled.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the company intends to settle its current tax assets and liabilities on a net basis.

Severn Trent Utility Services Limited

Notes to the financial statements

e) Impairment of fixed assets

If the recoverable amount of a fixed asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Where the asset does not generate cash flows that are independent from other assets, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Recoverable amount is the higher of fair value less costs to sell or estimated value in use at the date the impairment review is undertaken. Fair value less costs to sell represents the amount obtainable from the sale of the asset in an arm's length transaction between knowledgeable and willing third parties, less costs of disposal. Value in use represents the present value of future cash flows expected to be derived from a cash-generating unit, discounted using a pre-tax discount rate that reflects current market assessments of the cost of capital of the cash-generating unit or asset.

The discount rate used is based on the estimated cost of capital of the asset or cash-generating unit.

Impairments are recognised immediately in the profit and loss account.

f) Investments

Investments are stated at cost less, where appropriate, provisions for impairment.

2. Significant accounting judgements and key sources of estimation uncertainty

In the process of applying the company's accounting policies, no significant judgements or key accounting estimates were required.

3. Employee information

The average monthly number of employees (including executive directors) during the year was nil (2014: nil)

4. Directors' remuneration

The emoluments of the directors are paid by other companies within the Severn Trent group.
