Strategic report

Business review and principal activities

The company is a wholly owned subsidiary of Severn Trent Plc.

On 14 March 2017, the company disposed of its investment in Cognica Limited for proceeds of £650,000, resulting in an exceptional gain on disposal of £550,000.

There have not been any significant changes in the company's principal activities in the year under review. The directors are not aware, at the date of this report, of any likely major changes in the company's activities or prospects in the next year.

The company's profit for the financial year after taxation was £572,000 (2016: £11,000).

The company does not trade and the company's directors do not believe that further key performance indicators for the company are necessary to enhance the understanding of the development, performance or position of the business.

Principal risks and uncertainties

Treasury management

The Severn Trent group manages its treasury operations on a group basis. Financial risk management is performed by Severn Trent's Group Treasury department. This includes assessment and mitigation of price risk, credit risk, liquidity risk and interest rate cash flow risk. The group's treasury management policies and operations are discussed in Severn Trent Plc's Annual Report and Financial Statements (which does not form part of this report).

Going concern and financial position

The directors have considered the financial position and future prospects of the company. The company participates in the group's pooled banking arrangements and receives funding from the Severn Trent group in the form of intra-group loans. When existing loans reach maturity the appropriate funding will be established as required to ensure such obligations can be met. After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the report and annual financial statements.

Notes to the financial statements

1. Accounting policies

a) Accounting convention

The financial statements have been prepared on the going concern basis (see Strategic report) under the historical cost convention as modified by the revaluation of certain financial assets and liabilities (including derivative instruments) at fair value, and in accordance with applicable United Kingdom Accounting Standards and comply with the requirements of the United Kingdom Companies Act 2006 ('the Act'). The principal accounting policies, which have been applied consistently in the current and preceding year are set out below.

The company is a private company limited by shares incorporated in the United Kingdom under the Companies Act 2006 and is registered in England and Wales.

b) Basis of preparation

The company is a wholly owned subsidiary of Severn Trent Plc and is included in the consolidated financial statements of Severn Trent Plc.

The company meets the definition of a qualifying entity under FRS 100 'Application of Financial Reporting Requirements'. Accordingly, the company has elected to apply FRS 101 'Reduced Disclosure Framework'. Therefore the recognition and measurement requirements of EU-adopted IFRS have been applied, with amendments where necessary in order to comply with the Companies Act 2006 and The Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 (SI 2008/410) as these are Companies Act 2006 accounts.

As permitted by FRS 101, the company has taken advantage of the disclosure exemptions available under that standard in relation to share based payment, financial instruments, capital management, presentation of comparative information in respect of certain assets, presentation of a cash flow statement, standards not yet effective, impairment of assets and related party transactions.

Where required, equivalent disclosures are given in the group financial statements of Severn Trent Plc. The group financial statements of Severn Trent Plc are available to the public and can be obtained as set out in note 17.

c) Finance and similar income

Interest income is accrued on a time basis by reference to the principal outstanding and at the effective interest rate applicable. Interest income is included in interest receivable.

d) Exceptional items

Exceptional items are income or expenditure, which individually or, if of a similar type, in aggregate should, in the opinion of the directors, be disclosed by virtue of their size or nature if the financial statements are to give a true and fair view.

e) Taxation

Current tax payable is based on taxable profit for the year and is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date. Taxable profit differs from profit before tax as reported in the income statement because it excludes items of income and expenses that are taxable or deductible in other years and it further excludes items that are never taxable or deductible.

f) Impairment of non-current assets

If the recoverable amount of goodwill, an item of property, plant and equipment, or any other non-current asset is estimated to be less than its carrying amount, the carrying amount of the asset is reduced to its recoverable amount. Where the asset does not generate cash flows that are independent from other assets, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Recoverable amount is the higher of fair value less costs to sell or estimated value in use at the date the impairment review is undertaken. Fair value less costs to sell represents the amount obtainable from the sale of the asset in an arm's length transaction between knowledgeable and willing third parties, less costs of disposal. Value in use represents the present value of future cash flows expected to be derived from a cash-generating unit, discounted using a pre-tax discount rate that reflects current market assessments of the cost of capital of the cash-generating unit or asset.

The discount rate used is based on the estimated cost of capital adjusted for the risk profiles of individual businesses.

Impairment reviews are carried out if there is an indication that an impairment may have occurred, or, where otherwise required, to ensure that non-current assets are not carried above their estimated recoverable amounts.

Impairments are recognised in the income statement.

g) Parent company investments

Investments are recorded at historical cost, less provisions for impairment where appropriate.

2. New accounting policies

The company has adopted all amendments to standards with an effective date relevant to this year end with no material impact on its results, assets or liabilities. All other accounting policies have been applied consistently.

3. Significant accounting judgements and key sources of estimation uncertainty

In the process of applying the company's accounting policies, no significant accounting judgements or key accounting estimates were required.

4. Employee numbers

The average monthly number of employees (including executive directors) during the year was nil (2016: nil).

5. Directors' remuneration
