The financial statements have been prepared under the historical cost convention and in accordance with Section 1A of Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies. None of the estimates used or judgements made will result in a significant change of the amounts included in the financial statements for the following year when the final amounts are confirmed.

The following principal accounting policies have been applied:

2.2 Going concern

The director is of the opinion that the Company has adequate resources to continue its operational activities for the foreseeable future and is of the opinion that the going concern basis should be adopted in the preparation of the financial statements.

Depreciation is provided on the following basis:

Fixtures and fittings	- 5 years straight line
Computer equipment	- 3 years straight line
Leasehold Improvements	- 5 years straight line or life of lease

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted prospectively if appropriate, or if there is an indication of a significant change since the last reporting date.
