## Leggacy Consulting Limited Notes to the Abbreviated Accounts for the Year Ended 31 March 2012

#### 1 Accounting policies

#### **Basis of preparation**

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

#### Turnover

The company's turnover represents the value, excluding value added tax, of goods and services supplied to customers during the year. The whole of the company's turnover was generated from its main activity and arose in the U K.

#### Depreciation

Depreciation has been computed to write off the cost of tangible fixed assets over their expected useful lives using the following rates

#### **Asset class**

Office equipment

#### Depreciation method and rate

20% per annum of cost

#### Deferred tax

Deferred taxation is provided on the liability method to take account of timing differences between the treatment of certain items for accounts purposes and their treatment for tax purposes. Tax deferred or accelerated is accounted for in respect of all material timing differences to the extent that it is considered that a net liability may crystallise.

#### Financial instruments

Financial instruments are classified and accounted for, according to the substance of the contractual arrangement, as financial assets, financial liabilities or equity instruments. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Where shares are issued, any component that creates a financial liability of the company is presented as a liability in the balance sheet. The corresponding dividends relating to the liability component are charged as interest expense in the profit and loss account.
