NOTES TO THE ABBREVIATED ACCOUNTS
FOR THE YEAR ENDED 31 MARCH 2013

1 ACCOUNTING POLICIES

Accounting convention

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

Turnover

The turnover shown in the profit and loss account represents commissions and fees earned during the year. A clawback provision based on indemnity commissions received, on a sliding scale of between 4% and 1% has been made.

Amortisation

Amortisation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset.

The useful economic life of the goodwill was reviewed on 1 April 2003 and a write off period of 10 years, on a straight line basis, from that date was deemed reasonable.

Depreciation

Depreciation is calculated so as to write off the cost of an asset, less its estimated residual value, over the useful economic life of that asset as follows:

Office equipment	- 25% straight line
Computer equipment	- 33 3% straight line

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Deferred tax assets are recognised only to the extent that the directors consider that it is more likely than not there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme for employees. The assets of the scheme are held separately from those of the company. The annual contributions payable are charged to the profit and loss account.
