Notes to the Abbreviated Accounts

for the year ended 30 April 2013

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Going concern

The company's working capital requirements are provided by the shareholders who have undertaken not to require repayment of amounts due without the company having sufficient liquid reserves. For this reason these accounts are prepared on a going concern basis notwithstanding the deficit of shareholders' funds.

Deferred taxation

Full provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes. Deferred taxation is calculated on an un-discounted basis at the tax rates which are expected to apply in the periods when the timing differences will reverse.

Foreign currencies

The Company is engaged in the provision of services to customers in continental Europe and raises invoices and incurs expenses in euros and for this reason the financial records are maintained and these financial statements are denominated in that currency. Transactions in currencies other than the euro are translated at the official exchange rate. Monetary assets and liabilities denominated in currencies other than the euro are translated at the rate of exchange ruling at the balance sheet date. All differences are taken to the profit and loss account.
