The Company is financed by working capital, loans from the parent company and equity.

PRINCIPAL RISKS AND UNCERTAINTIES

As a result of the integrated nature of the group, the principal risks and uncertainties facing the Company are those which affect the group as a whole.

These risks and uncertainties are as detailed below.

Revenue generation: The on-going demand for the music administered by the Company is unpredictable and as such the level at which this music will generate revenue in future periods is uncertain.

The Company seeks to mitigate this risk by seeking to make its roster of music administered by the entity as wide-ranging as possible. This means that the Company's revenue is not unduly affected by fluctuations in the popularity of certain genres of music, or of specific writers and artists. The fact that the Company collects royalties worldwide minimises its exposure to specific territories.

Client acquisition and retention: The decisions of potential clients to sign with Kobalt Music Group Limited ("Group") or of existing clients to remain with the Group are complex and involve the consideration of many factors. As such it is uncertain how many new clients the Company will sign and what proportion of existing clients will extend their agreements.

In recent years the Company has increased its sales efforts, particularly in the USA which is the world's largest market. Furthermore the client continues to have the financial resources available to it from its ultimate parent entity, Kobalt Music Group Limited.

The Company makes constant efforts to improve its service offering, particularly in the areas of transparency and technological innovation. This serves to help retain existing clients as well as encouraging new clients to join the Group.

Market environment: Changes in the economic conditions of the markets in which the Group operates could impact its business. The Group monitors the latest developments in the industry by means of research, review of trade publications, and membership of industry organisations and forums. The Gorup's state of the art royalty processing and analysis systems allow it to adapt more quickly to industry changes than more traditional publishers and record labels.

Changing distribution: The new channels for music distribution are continually changing the operational and financial dynamics of music publishing.

STRATEGIC REPORT (continued) For the year ended 30 June 2022

Again the Group's technological expertise makes it well-placed to adapt to new distribution channels. The high level of automation in its royalty processing makes assimilating new sources of revenue and/or royalty information less time-consuming and costly.

Third party suppliers: The Group relies on a number of important third party suppliers to operate successfully. Any failure in the provision of these services may adversely impact the Group's business.

In recent years the Group has sought to institute direct collection in as many territories as possible, thereby minimising its exposure to the failure of third parties. However, the nature of music publishing makes it impossible to avoid reliance on some third parties, especially royalty collection societies.

Climate change: We are committed to finding ways of reducing our environmental impact and endeavour to be a considerate member of our local, and wider, communities. As a business we actively engage a paperless environment using technology to support this initiative, but where this is not possible all our offices are equipped with recycling facilities to reduce our consumptive waste. As a global business, while travel is necessary, we aim to minimise our travel to only essential travel where possible.

FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Company's activities expose it to a number of financial risks including currency risk, credit risk and liquidity risk. The use of financial derivatives is governed by the Company's policies approved by the board of directors, which provide written principles on the use of financial derivatives to manage these risks. The Company does not use derivative financial instruments for speculative purposes.

Currency risk

The Company's activities expose it to some risk of changes in foreign currency exchange rates. Other than in exceptional circumstances, the group does not feel it necessary to hedge against these exposures as there is largely a natural hedge of currencies.

Credit risk

Royalties due to the Group are often from large and established organisations and there is considered to be a low risk that these debts will not be recovered.

Liquidity risk

The Company regularly prepares and updates cash flow forecasts which monitor its financing requirements. The ultimate parent company, Kobalt Music Group Limited, maintains a close relationship with its existing lenders whilst regularly assessing the possibility of obtaining finance from other sources, which has financial implication to Kobalt Music Services Limited.

Additionally, the Board considers more specific needs and objectives of the key stakeholders during the regular board meetings. NOTES TO THE FINANCIAL STATEMENTS For the year ended 30 June 2022

1. ACCOUNTING POLICIES

The principal accounting policies are summarised below.

Basis of accounting

Kobalt Music Services Limited (the 'Company') is a private company limited by shares incorporated in the United Kingdom under the Companies Act 2006 and is registered in England and Wales. The address of the Company's registered office is shown on page 1.

These financial statements are presented in pounds sterling, which is also the functional currency because that is the currency of the primary economic environment in which the Company operates.

The financial statements have been prepared in accordance with FRS 101 'Reduced Disclosure Framework' as issued by the FRC.

As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under that standard in relation to certain disclosures regarding the Company's presentation of comparative information in respect of certain assets, presentation of a cash flow statement, certain related party transactions and financial instruments. Where relevant, equivalent disclosures have been given in the group accounts of Kobalt Music Group Limited.

Going concern

The Company has financial support from its ultimate parent, Kobalt Music Group Limited.

The Directors have a reasonable expectation that the Company and the Group have adequate resources to continue in operational existence for the foreseeable future. During the year the Group made a profit of \$65.6 million from continuing operations and at the balance sheet date had net assets of \$32.6 million and net current liabilities of \$168.9 million. The current year profits are reflective of the strategic decision to invest in the future.

The Group's cash position remained strong, with cash of \$60.8 million held at the balance sheet date. The Company's borrowings of \$255.5 million at the balance sheet date was used to acquire \$212 million in Publishing IP catalogue assets to further enhance our future profitability. In October 2022, Francisco Partners became the Company's major shareholder, investing in our vision and growth.

Further details regarding the adoption of the going concern basis can be found in the Statement of accounting policies in the financial statements.

Measurement basis

The financial statements have been prepared on a historical cost basis.

Revenue

Music royalties revenue is recognised on an accrual basis in accordance with the substance of the relevant agreement (provided that it is probable that the economic benefits will flow to the Company and the amount of revenue can be measured reliably). All revenue for the year relates to music royalties and derives from one revenue stream which cannot be segregated by geographical location.

Foreign currency translation

Assets and liabilities in foreign currencies are translated into sterling (GBP) at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies, other than purchases of sterling, are translated into sterling at average monthly rates. Purchases of sterling are translated at the rate ruling on the date of the transaction. Exchange differences (including closing balances) are taken into account in arriving at the operating result. Exchange differences on opening net assets are taken directly to reserves.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 June 2022

1. ACCOUNTING POLICIES (continued)

Management charges

Intercompany management charges are costs incurred for services performed by other Group entities on behalf of the Company. Expenses are recharged at cost plus a mark-up.

Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised based on tax laws and rates that have been enacted or substantively enacted at the balance sheet date.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the Company intends to settle its current tax assets and liabilities on a net basis.

Current tax and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Financial instruments

Financial assets and liabilities, such as cash, trade receivables and trade payables, arise directly from the Company's operating activities. Trade receivables are short-term and recognised at the undiscounted amount owed to the Company. Trade payables are short-term and recognised at the undiscounted amount due from the Company. Any intercompany balances will be recognised at amortised cost.

NOTES TO THE FINANCIAL STATEMENTS (continued) For the year ended 30 June 2022

1. ACCOUNTING POLICIES (continued)

Royalty advances

Advances in respect of royalties payable, which are non-refundable but recoupable, comprise advances to clients under contract. These advances are included as other debtors. Specific provisions are made against these advances where the outstanding advance at the balance sheet date exceeds future expected royalty earnings.

New standards and interpretations issued

At the date of authorisation of these financial statements, the Company has not applied the following new and revised IFRSs that have been issued and effective during the year:

Title	Subject	As issued by the IASB, mandatory for accounting periods starting on or after
IFRS 16 – Amendments	Covid-19-Related Rent Concessions beyond 30 June 2021	April 2021
IFRS 17	Insurance Contracts	1 Jan 2023
IFRS 17 - Amendments	IFRS 17	1 Jan 2023

The Directors do not expect that the adoption of the Standards listed above will have a material impact on the financial statements of the Company in future years

Hybrid accounting

For the year ended 30 June 2020, Kobalt Music Administration Limited, Kobalt 2015 Limited, Kojam Music Limited and Kobalt Music Services II Limited were hived-up into Kobalt Music Service Limited. The Company has applied hybrid accounting, FRS 102.19.27 to account for the merger of the assets and liabilities. As per the hybrid accounting method, the Company has transferred assets and liabilities at nominal value as at 30 June 2020, resulting in a merger reserve.

2. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Company's accounting policies, which are described in note 1, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Critical judgements in applying the Company's accounting policies

The following are the critical judgements, that the directors have made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognised in the financial statements.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the year ended 30 June 2022

2. CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (continued)

Revenue recognition

In making its judgement, management considered the detailed criteria for the recognition of revenue from the provision of services set out in IFRS 15, in particular, whether the Company can reliably measure the revenue due from its contractual counterparts. The directors are satisfied that the valuation method adopted in making this measurement of the revenue in the current year is appropriate.

Key sources of estimation uncertainty

The key assumptions concerning the future, and other key sources of estimation uncertainty at the reporting period, that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are discussed below:

Recoverability of advances

In the course of its business the Company regularly makes advances to clients which are recoupable by means of future royalty receipts, but non-refundable.

The directors assess the recoverability of these advances by considering historic earning trends of the clients concerned and also with reference to expected future earnings. Where the discounted value of future earnings is less than the amount advanced a provision is booked against the advance.

3. ADMINISTRATIVE EXPENSES

Bank charges	20	12
Provisions and write-offs	932	1,311

The auditor's remuneration for the audit of the financial statements for the period was nil (2021: £14k) for the audit and nil (2021: £4k) for tax services. All costs were borne by the ultimate parent company.

The Company did not pay any directors' remuneration. In the current and prior year, the directors of this Company were remunerated by the ultimate parent company. The total amounts paid by the parent for directors' remuneration for the year ended 30 June 2022 were £40.7m (2021: £8.9m), restated to include the full directors remuneration.
