Acorn Care (Welshpool) Limited ACCOUNTING POLICIES

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements

BASIS OF PREPARATION

The financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom accounting standards

Under Financial Reporting Standard 1 the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company is its own published consolidated financial statements

The company has taken advantage of the exemption contained in Financial Reporting Standard 8 and has therefore not disclosed transactions or balances with entities which form part of the Lighthouse Healthcare Limited group and are 100% owned

GOING CONCERN

The financial statements have been prepared on the going concern basis, which assumes that the company will be able to continue to trade for the foreseeable future. A written pledge has been made between the holding company and Acorn Care (Welshpool) Limited to offer support to ensure that the company can continue to trade and meet its liabilities as they fall due

The group has bank funding in place until October 2017, with significant headroom on current and forecast performance to meets its obligations. As at the balance sheet date the group was in breach of its bank facilities. However, the group has successfully renegotiated these facilities, which were finalised on 4 April 2013, and the funding continues to be in place until October 2017. The group currently hedges 77% of its bank debt to mitigate the risk of increased interest costs as a result of adverse LIBOR fluctuations.

The company's main customer continues to be the NHS and any changes in government purchasing policy would constitute a risk. Since the Winterbourne View abuse scandal in May 2011, the learning disability and mental health hospital sector has come under increased pressure and the directors believe that the Department of Health review announced in December 2012 may impact on the future financial performance of the company and group. The financial effect of this review is not quantifiable at the date of the approval of these accounts but the directors believe the company and group are well positioned to adapt to market demands and are confident the business can be sustained in the future

NHS, government bodies and local authorities continue to be under pressure to cut spending, which represents a risk to the business in terms of fees for new admissions and inflationary increases on fees for existing users of the services. Wherever possible the company mitigates price risk through negotiating long term contracts for patients and service users with fixed price agreements and it is committed to working with its purchasers to find solutions that provide demonstrable value for money. In an increasingly competitive market, the strategy is to continue to focus on providing high quality person-centred services at fee levels which are competitive and represent good value.

On this basis the directors consider it appropriate to prepare financial statements on a going concern basis

The directors only recognise any deferred tax asset after consideration of the potential recoverability of the asset in the foreseeable future
