- make judgements and accounting estimates that are reasonable and prudent;

The financial statements are presented in sterling, rounded to the nearest thousand.

#### **Summary of disclosure exemptions**

### **Notes to the Unaudited Financial Statements for the Year Ended 31 December 2016 (continued)**

#### **2 Accounting policies (continued)**

##### **Going concern**

The financial statements have been prepared on a going concern basis. The intermediate parent company, Partnerships in Care UK 1 Limited, has confirmed that it will continue to provide financial support to the company for the foreseeable future and for at least 12 months from the date of approval of these financial statements. Accordingly the financial statements have been prepared on the going concern basis.

##### **Exemption from preparing group accounts**

The financial statements contain information about Craegmoor Group (No.6) Limited as an individual company and do not contain consolidated financial information as the parent of a group.

The company is exempt under section 400 of the Companies Act 2006 from the requirement to prepare consolidated financial statements as it and its subsidiary undertakings are included by full consolidation in the consolidated financial statements of its parent, Partnerships in Care UK 1 Limited, a company incorporated in United Kingdom.

##### **Changes in accounting policy**

None of the standards, interpretations and amendments effective for the first time from 1 January 2016 have had a material effect on the financial statements.

##### **Tax**

The tax expense for the period comprises current tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

Deferred income tax is recognised on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements and on unused tax losses or tax credits in the company. Deferred income tax is determined using tax rates and laws that have been enacted or substantively enacted by the reporting date.

The carrying amount of deferred tax assets are reviewed at each reporting date and a valuation allowance is set up against deferred tax assets so that the net carrying amount equals the highest amount that is more likely than not to be recovered based on current or future taxable profit.

Payment is generally made for group relief at the current tax rate at the time of first estimating the tax provision. To the extent that amendments are subsequently made to the group relief plan, there is generally no payment or receipt in respect of the change.

### **Notes to the Unaudited Financial Statements for the Year Ended 31 December 2016 (continued)**

#### **2 Accounting policies (continued)**

##### **Investments**

Investments in securities are classified on initial recognition as available-for-sale and are carried at fair value, except where their fair value cannot be measured reliably, in which case they are carried at cost, less any impairment.

Unrealised holding gains and losses other than impairments are recognised in other comprehensive income. On maturity or disposal, net gains and losses previously deferred in accumulated other comprehensive income are recognised in income.

Interest income on debt securities, where applicable, is recognised in income using the effective interest method. Dividends on equity securities are recognised in income when receivable.

##### **Share capital**

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

#### **3 Critical accounting judgements and key sources of estimation uncertainty**

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the period then ended. Management bases its estimates on historical experience and various other assumptions that are considered to be reasonable in the particular circumstances. Actual results may differ from these estimates.

Estimates are used in accounting for allowances for uncollected receivables, depreciation, taxes and contingencies. Estimates and assumptions are reviewed periodically and the effects of the revision are reflected in the financial statements in the period that an adjustment is determined to be required.

Significant accounting judgements have been applied with respect to the valuation of deferred tax assets. Deferred tax assets and liabilities require management judgement in determining the amounts to be recognised. In particular, judgement is used when assessing the extent to which deferred tax assets should be recognised with consideration given to the timing and level of future taxable income.

#### 5 Directors' remuneration

The costs relating to the directors' services have been borne by Priory Central Services Limited, a fellow group company. No amounts (2015: £nil) have been recharged to the company in respect of the directors' services and the directors do not believe that it is practical to allocate these costs between group companies. The company has no employees (2015: nil).
