**Netsima Limited NOTES TO THE
ABBREVIATED ACCOUNTS
for the year ended 31 May 2016**

1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015) ["the FRSSE"].

Turnover

Turnover represents the amounts (excluding value added tax) derived from the provision of goods and services to customers.

Tangible fixed assets and depreciation

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life:

Furniture, fittings and equipment	33.3% straight line basis
-----------------------------------	---------------------------

Deferred taxation

Deferred tax arises as a result of including items of income and expenditure in taxation computations in periods different from those in which they are included in the company's accounts.

Deferred tax is provided in full on timing differences which result in an obligation to pay more (or a right to pay less) tax at a future date, at the tax rates that are expected to apply when the timing differences reverse, based upon current tax rates and laws.

Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset.

Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

Pension costs

Contributions in respect of the company's defined contribution pension scheme are charged to the profit and loss account for the year in which they are payable to the scheme. Differences between contributions payable and contributions actually paid in the year are shown as either accruals or prepayments at the year end.
